The City of Faisalabad

Faisalabad, the Manchester of Pakistan, is one of the first planned and systematic cities in the sub-continent established by the British Government, after the name of Sir James Lyall. Lyallpur was the name ascribed to this fertile land of Sandal Bar. The unique bond between the sister countries Pakistan and Saudi Arabia led to renaming it after the name of our friend, late King of Saudi Arabia, King Faisal. The City is catering to the needs of more than seven million people. Agriculture and industry are the hallmarks of Faisalabad with a powerful and ever developing thrust in these sectors. Faisalabad International Airport, Faisalabad Dry Port and Industrial Zone linked with the Motorway are facilitating this hub of industrial activities.

The historical Clock-Tower with Eight Bazaars designed after Union Jack, presents a magnificent example of town planning located in the province of Punjab to the west of Lahore, the provincial capital. With proper infrastructure and road linkages, Faisalabad serves as an example as district, as division and as a city for the developing world. The Faisalabad International cricket and hockey stadiums host international matches. The city has produced great leadership in the fields of politics, commerce, education, health, sports, agriculture, economy, bureaucracy and biotechnology.

History & Introduction

Government College University Faisalabad has emerged as a leading center of learning and research in a short span of time. The University with its dynamic faculty and innovative syllabi has become a catalyst of intellectual, social and industrial change. It caters to the diverse needs of society by imparting education in almost all the major fields of learning.

The University's journey started as a primary school in 1897 in the present building of Government College for Women, Karkhana Bazar, Faisalabad. It was promoted to High School and Intermediate College in 1905 and 1924 respectively. It was elevated to the degree level in 1933 and postgraduate disciplines were introduced in 1963. The long journey that started from the humble beginning reached its climax when it was granted the status of University in October 2002.

Government College University Faisalabad has a long history of excellence and distinction as an institution. Renowned scholars and eminent personalities have served this institution in various capacities at various stages of its history. It has produced outstanding personnel who have earned great fame not only for themselves but also for the nation.

University Vision

We believe in empowering our youth with professional capabilities for enabling them to contribute towards the sustainable socio-economic progress of the country and for the greater good of mankind, regionally as well as globally.

University Mission

To enable the future generations with strong foundation of ethical standards, professional competence, social tolerance and inspiring leadership to contribute on social, economic, cultural, technological and entrepreneurial fronts for an inclusive and prosperous future.

Prof. Dr. Rauf-i-Azam, currently Vice Chancellor of the Government College University Faisalabad, earned his Master's and MPhil degrees in Mathematics from the Quaid-i-Azam University, Islamabad, followed by a PhD, in Information Systems, from Nara Institute of Science and Technology, Nara, Japan. Since the completion of his PhD in 1998 he has been involved with teaching, research, consulting and other similar activities in the realm of knowledge economy. He is a distinguished educationist with vast experience in teaching, research, administration and institutional development. Previously, (from 2021 to 2024), he served as the founding Vice Chancellor of the Punjab University of Technology Rasul, Mandi Bahauddin. In this role he worked to develop a new university leading all the activities ranging from planning to execution of a large development project worth more than Rs.6.208 billion. He has also served as Pro-Rector at the University of Lahore, one of the largest universities in the private sector. Earlier, (from 2015 to 2019), he served as the Vice Chancellor of the University of Education, Lahore, where he was instrumental in designing and implementing a comprehensive reform agenda improving the quality of education through improvements in faculty, curricula, operational efficiency, institutional environment, use of technology and many other institutional aspects. Prof. Dr. Rauf-i-Azam is of the view that as universities are the places where future of a nation is built, they should present a living model where competence is nurtured, responsible citizenship is practiced, diversity is respected, and learning is a continuous pursuit – in short, the universities should present a model of a society that we desire to build and live in.

Prof. Dr. Rauf-i-Azam
Vice Chancellor

Message of the Vice Chancellor

Dear Prospective Students, and valued Stakeholders, I feel glad to welcome you for considering Government College University Faisalabad (GCUF) – an institution renowned for its commitment to academic excellence, research, innovation, and societal impact – as your learning destination.

As the Vice Chancellor of GCUF, I extend my heartfelt appreciations to the students, faculty, staff and all other stakeholders for having contributed to its progress. GCUF, as an institution of higher learning, that stands as a beacon of academic excellence, social responsibility, and innovative research. Our journey has been one of progress, achievement, and continued growth, shaped by the dedication and commitment of every member of our community. GCUF has an enviable legacy of enriching minds and transforming lives. This legacy, built over decades, inspires us to rise to the challenges of a rapidly evolving world. In this dynamic era, our role as an academic community is pivotal – not only in advancing knowledge but also in addressing global and local challenges through education, research, and service.

At GCUF, we are deeply committed to nurturing the leaders of tomorrow – those who will shape not only the future of Pakistan but will also contribute meaningfully to the global landscape. Our academic programs, state-of-the-art research facilities, and collaborative approach to learning creates an environment where excellence can be achieved.

Our students are at the heart of everything we do. We are committed to providing them with a conducive environment and transformative educational experience that equips them with the skills, knowledge, and values needed to thrive in a competitive world while contributing positively to the society.

The dedication of our faculty and staff is the cornerstone of our collective success. Together, we strive to cultivate an environment of intellectual curiosity, innovation, and mutual respect that allows our students to achieve their fullest potential. The faculty remains at the centre of our mission – serving as mentors, researcher advisors, and thought leaders. Their unwavering dedication to teaching and knowledge creation empowers our students to think critically, solve complex problems, and approach the world with confidence and a sense of purpose. The hard work and passion of our administrative and support staff are equally invaluable, ensuring that our university remains a dynamic and supportive learning place for all.

The support of our stakeholders – affiliates, industry partners, parents, alumni, and the community at large – is essential as we work to position GCUF as a beacon of knowledge and a driver of positive change among our communities, country and beyond.

As a leading educational institution in the country – ranked 2nd in Pakistan and 1st in Punjab by the Times Higher Education (THE) World University Rankings 2025 – GCUF recognizes the importance of strong partnerships with industry, government, and society at large. These relationships are crucial to advancing our shared goal of contributing to the development of knowledge and society, through strategic collaborations, innovative research, and a focus on community engagement. We remain committed to playing a significant role in addressing the challenges of our time.

As we move forward, I envision GCUF as a hub of and a nurturing ground for academic distinction, impactful research, ethical leadership and a functional model of the society built on the principles of inclusivity, integrity, and excellence.

I look forward to engaging with you and having you on our campuses. As we embark on this journey of growth and achievement, we hope to work hand in hand to elevate GCUF to even greater heights, fostering a brighter future for all the stakeholders

Vision

To foster a robust research ecosystem that emphasizes innovation and the commercialization of research outputs at an industrial scale. ORIC aims to empower faculty and researchers through targeted capacity-building initiatives and to strengthen academia-industry linkages, promoting entrepreneurship with a meaningful societal impact.

Mission

The mission of ORIC-GCUF is to enhance the research culture at GCUF by diversifying and increasing external research funding and promoting multidisciplinary research focused on technology transfer and commercialization at both national and international levels.

Introduction

GCUF implemented a comprehensive R&D policy to cultivate a dynamic research culture and improve productivity through strategic linkages and competitive funding from national and international agencies. In alignment with HEC's guidelines, Directorate of Research that was established in 2009, was upgraded to ORIC in 2012 to coordinate research initiatives, enhance capacity building, and ensure excellence in research and innovation. ORIC-GCUF is committed to supporting researchers and entrepreneurs by facilitating internal and external collaborations, securing research funding, and nurturing innovative ideas with commercialization potential for national economic development. The office also bridges academia and industry, creating opportunities to develop a knowledge-based economy.

Activities at ORIC

1. Strengthening research, development, and the commercialization of innovative ideas.
2. Building professional networks through international research exchange programs in collaboration with the Directorate of International Linkages.
3. Promoting creative thinking and innovation to ensure market relevance and assist in converting research outputs into

products, services, or intellectual property.

4. Enhancing academia-industry partnerships through the Directorate of Industrial Linkages for effective technology transfer.
5. Motivating faculty and researchers through in-house training on research skills, patent filing, and commercialization according to international standards.
6. Facilitating the protection of Intellectual Property (IP) Rights for researchers.
7. Establishing an entrepreneurial ecosystem to launch and scale start-ups via the Business Incubation Center (BIC).
8. Promoting research culture through internal research support programs and acknowledging achievements via Research Productivity Awards

Research Management

GCUF has demonstrated exceptional research productivity:

- From 2012 to date, 252 projects have been completed through ORIC.
- In the past five years, 75 projects worth PKR 773 million were executed.
- GCUF secured the highest number of competitive research grants in Punjab during 2018–2020.
- Over the last five years, 7392 publications have showcased

faculty's excellence in both science and social sciences.

- Joint research projects were secured with agencies in United States of America, United Kingdom, European Union, Iran, Turkey, Japan, and China.
- 28 capacity-building workshops have been conducted for faculty.
- A total of PKR 41.56 million has been awarded under the Research Productivity Award.

Innovation and Commercialization

ORIC supports researchers in commercializing their innovations through its IP Policy and the Business Incubation Center (BIC). Entrepreneurs and industry experts collaborate as mentors and curriculum designers to align entrepreneurship programs with market needs.

The International Innovation Expo 2025, themed “Where Creativity Meets Technology,” was a major milestone, featuring 60+ faculty projects and participation from 10+ industry partners. Delegates from 20 international universities—including Oman, Malaysia, Jordan, Tatarstan, Iran, Palestine, Tanzania, and Bangladesh—praised GCUF's research culture and pledged collaborative research efforts. Out of these, 35 projects were selected for showcasing in the Punjab Innovation and Technology Expo 2025, organized by the Punjab Higher Education Commission.

External Linkages

ORIC has signed over 46 MOUs with premier national and international organizations, including:

- NIAB, NIBGE, UAF, HEC, PSF, PARB, PARC, PCSIR
- British Council, USDA, JICA, and CIDA

These linkages enhance research, entrepreneurship, and academic excellence at GCUF.

Intellectual Property (IP) Policy and Legal Services

ORIC's IP Policy ensures the strategic management, protection, and commercialization of innovations. It outlines the responsibilities of faculty, researchers, students, and partner institutions. ORIC also offers legal advisory and IP support services to facilitate innovation and safeguard research assets.

Collaboration with Advanced Studies and Research Board (AS&RB)

ORIC provides annual reports to AS&RB, identifying priority

research areas and documenting major research achievements. It offers actionable recommendations to strengthen graduate-level research programs and support faculty and student advancement.

Vision

To create the environment for business initiative for sustainable economic growth of the country.

Mission

To provide complete business support to business starter to reduce the failure chance and increase the success rate through mature mentor-ship program.

Introduction

We want to provide complete business support to business starters to reduce the failure chance and increase the success rate through mature mentor-ship programs. BIC GCUF consists of 21 Offices for the business incubates which have all the basic needs for the young entrepreneurs. Not only this, these incumbents are trained, guided, nurtured and mentored by the industry professionals and BIC GCUF team in order to provide them best resources and funding opportunities as well.

Business Incubation Center (BIC), GCUF

The Business Incubation Center (BIC) at Government College University Faisalabad is a dynamic platform designed to foster innovation, entrepreneurship, and economic growth. Established with the vision to bridge the gap between academia and industry, BIC-GCUF provides budding entrepreneurs, startups, and students with the resources, mentorship, and infrastructure needed to transform their business ideas into successful ventures.

Since its inception, BIC GCUF has incubated 12 faculty led startups, and 104 students led startups. Moreover, every year we incubate new startups following the established guidelines by the HEC and encourage young innovators to be a part of BIC. The Center offers comprehensive support services including business development guidance, access to funding opportunities, legal and financial advisory, state-of-the-art office spaces, and networking with industry leaders. Through workshops, training programs, and mentorship sessions, BIC cultivates an entrepreneurial mindset among students and researchers, empowering them to become future business

leaders.

BIC-GCUF actively collaborates with national and international organizations to provide market exposure and to facilitate technology commercialization. By encouraging innovation and entrepreneurship, the Center plays a crucial role in contributing to the socio-economic development of the region and the country at large.

At BIC-GCUF, we believe in turning ideas into impact — nurturing talent, accelerating startups, and creating a vibrant entrepreneurial ecosystem.

International Student Convention & Expo on 23rd to 25th February, 2025 was held in GCUF and BIC GCUF showcased 04 projects in technology and food science.

PINTECH Expo was held on 21st April, 2025 at Expo Center Lahore by Punjab Higher Education Commission and Higher Education Department Government of Punjab. All the Public Sector and Private Sector universities of the Punjab Province participated. 32 projects from GCUF were Showcased at the Expo.

The SFAO is an integral part of and partner in carrying out and actualizing Government College University's overall purpose and strategic planning. The fundamental purpose of the financial aid program is to make education possible for students who might otherwise be deprived of this higher education opportunity due to inadequate funds and /or previous limited educational opportunities.

Mission

The SFAO is primarily responsible for providing all information's, services, and assembling financial resources that are available to and/or needed by students who are attending Government College University in order to obtain an undergraduate or graduate degree.

Goals

1. Establish essential manual and automated processes to support awarding financial aid in a timely manner.
2. Award financial assistance to qualified students, according to institutional and Govt requirements and with a focus on individual student needs.
3. Establish regular communication flow between the SFAO and the students/parents.
4. Provide individual student/parent assistance in completing necessary applications and managing personal resources as they are needed to augment financial assistance in covering educational expenses.

Introduction

For smooth implementation of scholarship programs, a separate Student Financial Aid Office (SFAO) was established in Government College University, Faisalabad in collaboration with Higher Education Commission, Islamabad in 2007. The SFAO is being supervised by Ms. Saima Parveen, Assistant Registrar/ Incharge (SFAO) acts as a Focal Person for the distribution of various scholarships offered by HEC and other agencies. There are number of scholarships available to assist students with their educational expenses on need and merit basis. In addition

to the above Financial Aid, Committee has been constituted by this University for the evaluation and approval of the applications submitted by the students for financial aid. One window service is also being provided to the students to avail the scholarship facilities in the Students' Financial Aid Office.

Mission

The GCUF Library is committed to support the academic excellence and research endeavors of our university community. Our mission is to provide access to high-quality information resources, foster information literacy, and create an inclusive learning environment that promotes intellectual curiosity and discovery. We strive to anticipate and meet the evolving needs of our students, faculty, and staff, leveraging technology and expertise to enhance teaching, learning, and research. Through collaboration and innovation, we aim to empower our users to achieve their academic and professional goals and contribute to the advancement of knowledge and society.

Goals

The library aims to support research activities by providing access to updated information resources and fostering information literacy and critical thinking skills among students and faculty members. It creates an inclusive and conducive learning environment that promotes intellectual inquisitiveness and innovation. It provides research support and guidance to students and faculty. It preserves and promotes the university's intellectual heritage through collections and archives. It teams up with faculty and other stakeholders to advance the university's mission and goals.

Introduction

The library of Government College University Faisalabad presents a rich tradition of academic excellence and intellectual inquiry. The Armstrong Library at the center of the Main campus is a historic symbol of learning and research, and the Allama Iqbal Library at the new campus is a state of the art information center equipped with all the modern facilities and technology. To make it more innovative and to provide student friendly environment discussion rooms and conference rooms are being added to the Allama Iqbal Library. As a hub of knowledge and information, these libraries support the university's mission to achieve academic excellence and foster critical thinking, research, and innovation. The library's collection includes a vast array of books, journals, and digital resources, catering to the diverse needs of students, faculty, and researchers. With a focus on providing access to information and promoting literacy, the library plays a vital role in

shaping the academic and intellectual landscape of the university. GCUF libraries always welcome students and teachers from other educational institutions.

Digital library

GCUF Library also provides access to the Higher Education Commission (HEC) Digital Library. HEC Digital Library is a vital resource for the academic community, researchers and faculty members. To access the digital library high speed internet and state of the art computers are provided in Main libraries of both the campuses and departmental libraries. The HEC Digital Library provides access to a vast collection of e-books, journals, and articles, supporting research and learning. It offers access to international databases, enabling researchers to stay updated with global research trends. It enhances learning outcomes by providing students with access to quality educational resources. The digital library supports research and innovation by providing access to relevant and up-to-date information. It facilitates collaboration and networking among researchers, academics, and institutions. It also supports faculty development by providing access to resources for research and teaching.

Departmental libraries

Besides two state of the art libraries at the Main and New campuses, twelve departmental libraries are catering the information needs of the students and faculty members within their departments, these include

1. Fatima Jinnah Library
2. Education Department Library
3. Engineering and Computer Science Division Library
4. Faisalabad Institute of Fashion & Textile Design Library
5. College of Law Library
6. College of Pharmacy Library
7. Psychology Department Library
8. Quaid-e-Azam Block Library
9. University Community College Library
10. Zoology Department Library
11. English Department Library
12. Computer Science Library

Collections

The GCUF Libraries have about 115226 books (volumes) and 6000 theses in well-organized manners consisting of rare editions, reference volumes, critical guides, latest releases, a large collection of research journals, periodicals, magazines, etc., and daily newspapers. We subscribe to competitive journals, from all over the world to meet the needs of students, faculty members, and researchers. These libraries always welcome the students and teachers of the other educational institutions of the city with permission of the competent authority

Organization of Materials

Dewey decimal classification scheme is being used for the classification of books. Anglo American Cataloging Rules (AACRII) are followed in

Facilities & Services

the cataloging process. The Online cataloguing process of the library material is in progress and the catalogue of about 89,171/ books is available online.

Libraries have open shelves and users have free access to the library materials. Computers with access to library resources and the Internet facility are available in all the libraries. Chairperson Hall Council

Mission

To provide a secure, peaceful, and healthy living environment for female students from remote areas, enabling them to pursue their educational journey with confidence and dignity.

Introduction

The University Hall Council currently oversees thirteen girls' hostels, including three located on the Main Campus (Hall Council I) and ten situated on the New Campus named as Hall Council II, III, and IV which offers residential accommodation for 4,000 students approximately.

In response to the increasing demand for student housing, particularly from female students originating from remote areas. Almost 2 years ago, two additional hostels under Hall Council IV are fully operational. Almost fifty percent of the female students' population at the university hails from distant regions across the country. Keeping in view, the concerns of parents who value a safe and serene living environment for their daughters, the University Administration has prioritized the expansion of hostel facilities.

Each hostel is managed by a Superintendent and one Assistant Superintendent who are all selected from the regular female faculty of GCUF. These faculty members reside within the hostels to oversee operations and provide support to students. Besides this, Room Attendants are available during morning and evening shifts to assist residents and support the hostel administration.

All hostels are equipped with mess facilities, managed by student-led mess committees under the supervision of the Superintendent, Warden, and the Chairperson of the University Hall Council. Internet access is provided to students to ensure uninterrupted connectivity to academic resources for study and research purposes.

In cases of medical emergencies, university ambulance services are available to transport students to hospitals. Additionally, medical centers have been established on both campuses to provide timely healthcare support.

The security personnel are stationed at hostel entrances to ensure the safety and protection of residents. University transport is available to facilitate students' movement between the Main and New Campus.

Hostel residents are required to strictly adhere to the rules and regulations set by the Hall Council. Timely payment of all dues is compulsory. Any student found violating disciplinary or financial policies may face cancellation of her admission by the Chairperson of the Hall Council, and, if necessary, may forfeit all deposited securities.

Admission Process

Admission to the university hostels is granted strictly on a merit basis, primarily determined by the distance of the applicant's home district from Government College University, Faisalabad (GCUF).

Students seeking hostel accommodation must indicate their preference during the online university admission process. Once admission is confirmed, they are required to submit a printed hostel admission form duly recommended by the Chairperson or Incharge of their respective department to the Office of the Chairperson/Warden of the Hall Council.

The Directorate of Undergraduate Studies (DUS) was established in 2012 in order to facilitate the BS students from the start of their degrees to the award of degrees. This Directorate is also responsible for maintaining the complete record of undergraduate students from admission till completion of degrees. Since then, the Directorate is maintaining the record file of every individual student admitted in undergraduate programs.

Functions

The responsibilities of this Directorate also include facilitating the students in their academic issues i.e. enrollment, re-enrollment, freezing, resuming of Freezed Semester and other relevant academic matters during the course of studies. The goal of the Directorate is to help students achieve academic success by providing extensive academic advisory services. Accordingly, the Directorate works with faculty to establish and administer academic policies, assist with undergraduate curriculum development and review, and support proposals for new and revised undergraduate programs and courses through the various approval processes. The Directorate is also responsible for assisting the students with degree and career planning. Brief description of its services is given below:

1. Implementation of Undergraduate Education Policy (Main Campus, Sun-campuses and Affiliated

Colleges)

2. Awareness Sessions regarding Semester Rules and Regulations for undergraduate students
3. Re-enrollment of undergraduate students BS & 5th Bridging (Main campus, sub-campuses and UCC)
4. Extra semester enrollment of undergraduate students in BS & 5th Bridging Semester (Main campus, sub-campuses and UCC)
5. Special enrollment of undergraduate students BS & 5th Bridging (Main campus, sub-campuses and UCC)
6. Freezing and resuming of freezed semester of undergraduate students BS & 5th Bridging (Main campus, sub-campuses and UCC)

Prof. Dr. Muhammad Iqbal
Director

The Directorate of Planning and Development was formally established in Government College University Faisalabad in the year 2006. Since its establishment, this directorate is striving hard to make this institute a state-of-the-art university. All development plans are prepared by this Directorate after needs assessment and consultation of consultants as well. These plans are submitted to funding agencies like HEC, HED, MPA/MNA's grants, Alumni, and own sources for administrative approval. This directorate has prepared many PC-Is, business plans of the university, PSDP, PC-IVs, etc. Since its establishment, the PC-Is of about more than Rs. 10.00 billion have been prepared and out of these development projects of about Rs.4.00 billion have been approved and executed. It has recently been strengthened further by the Worthy Vice Chancellor by deputing three more Deputy Directors and two Assistant Directors.

The Campus Construction Committee (CCC) is the Apex body and final authority for administrative approval and technical sanction of all development projects at the University level. This directorate under the dynamic supervision of the worthy Vice Chancellor has been getting approval of different mega projects like "Development of New Campus Government College University, Faisalabad Phase-II" with a capital cost of Rs: 1124.461 million and another project of Chiniot Campus with a capital cost of Rs. 1676.561 million has been approved by HEC, and is being executed. The revised PC-I of the project "Establishment of Campus of Government College University, Faisalabad at District Chiniot" amounting to Rs. 2016.425 million has also been sent to HEC and approved by Pre-CDWP. Moreover, the work on the project titled "Establishment of Sub-Campus of Government College University, Faisalabad at Samundri" has been approved in ADP 2021-22 with a Capital Cost of Rs. 398.309 million, and is in progress with full swing.

The classes at Chiniot and Hafizabad sub-campus have already been launched. The Concept Paper of "Development of Government College University, Faisalabad Phase-III has also been submitted to HEC/ PHEC for approval.

Objectives

The major objectives of the Directorate of P&D are

1. Preparation of PC-Is for short and long term development projects of the university.
2. Getting approval of designs/ drawings of different development projects from HEC in consultation with the respective consultants.
3. Assisting Project Directorate office in preparation of activity and work plans.
4. Assisting Project Directorate for focusing on quality and accelerated development of the projects.
5. Ensuring timely release of funds from funding agencies.

Vision

Distance Learning Education is designed to provide commendable role model in academics, professionalism, operations and services rendered by using innovative technologies and methodologies assuring with quality by converging of existing formal education systems for convenience of massive human resource which is required for promoting integrated national development and global understanding.

Mission

Distance Learning Education is based on state of the art facilities and effective technologies to provide accredited, very affordable, accessible and well equipped learning opportunities with blessings to those students; who are incapable to attend the traditional, on-site regular campus classes due to issue of time, space and money or other social distancing aspects.

Introduction

Distance Learning Education is evolved as an alternate or parallel to the formal education system after an increasing realization that it is not perfectly coping with the educational needs and demands of the rapidly growing young population. The demand for education in Pakistan through formal education system is consistently run ahead of resources owing to the bulk of their young population. Therefore, remains educationally defined, and there are failing the demand in formal education system; the need of non-formal education in various disciplines becomes evident in concept of Distance Learning Education. Distance Learning Education helps to:

1. Cope with the rapid increasing demand of education,
2. Provide mass education at reasonable and low costs,

3. Acquire education at any stage of their life and,
4. Boost up the professional development of working people on their job place.

Objectives

The main objectives of Distance Learning Education are to:

- Enhance the teaching and learning process through the use of innovative educational technologies.
- Supporting and training of faculty, staff, and students in the use of Distance Learning Education technologies.
- Assist faculty in the development and delivery of courses at a distance.
- Develop and maintain partnerships with other educational institutions.
- Identify and provide access to courses and programs needed in the industry and job market.
- Enhance professional development of working people at their job place.

Prof. Dr. Muhammad Ramzan Saeed Ashraf Janjua
Director

Vision

Directorate of International Linkages is envisioned to enable the University to build its global footprint through research and academic collaborations.

Mission

Since its inception, the Directorate of International Linkages is striving for excellence to meet its directive through proactive and ambitious approach. This office has a focus to initiate linkages with reputable institutions and funding agencies and consortia with relevant academic and research organizations at international levels with the purpose of faculty and student exchanges within national and foreign universities and research institutes.

Introduction

Directorate of International Linkages is mandated to bridge the gap between the University and the international research and academic organizations through networking and collaborations. This office is envisioned to adapt the GCUF community with changing role of the universities through a greater connectivity and strong linkages with the regional and international communities. Therefore, this office seeks to enable the University to build its global footprint with research and academic collaborations at national and international levels by following global multisectoral approach. Since its inception, the Directorate of International Linkages has continued to strive for excellence in meeting its directive of evolving a proactive approach and development agenda geared at initiating linkages with reputable institutions and funding agencies for greater visibility of GCUF at national and international fronts. Despite a relatively young institute, GCUF has increased its academic and research portfolio many-fold which is evidenced from its consistent improvements in national and international rankings. As a result, the activities of this directorate are anticipated to grow exponentially with international organizations for building and expanding partnerships for capacity building, research & development, outreach activities and community development

programs.

Objectives

The Directorate of International Linkages at GCUF aims to proactively engage in following themes of collaboration:

- Exchange of faculty, research fellows and students
- Joint research projects, conferences, seminars, workshops and internships
- Joint curriculum development and degree programs
- Sharing and/or exchange of information & resources

Vision

Directorate of Industrial Linkage (DIL) enables to shed light on motivations, barriers of cooperation and influence of public policy in developing such linkages.

DIL aims to play its crucial role as a mediator and modulator for skill development, adoption of knowledge, promotion of entrepreneurship and innovation. DIL aids in strengthening R & D investment via exploiting the synergies and complementarity present in scientific and technological capabilities. This in turn, nurtures commercialization and mobility of labor in both the public and private sector.

Mission

Since its inception, the Directorate of International Linkages is striving for excellence to meet its directive through proactive and ambitious approach. This office has a focus to initiate linkages with reputable institutions and funding agencies and consortia with relevant academic and research organizations at international levels with the purpose of faculty and student exchanges within national and foreign universities and research institutes.

Introduction

University-industry linkage is really an imperative for the progress and prosperity of the nation. It is essential to identify the areas of collaboration, co-ordination and mutual support between the two basic sectors for sustainable national progress. The level and nature of academics and research has always played an important role in the process of development and is a common practice in the developed countries. Over the years, industry-academia collaboration has enhanced knowledge, innovation and played an integral part in the economic growth of developed countries. The linkage of academia and industry has a strategic role in developing critical skills required by industry generation, acquisition, and adoption of knowledge,

and in promoting entrepreneurship.

Achievement

Prof. Dr. Abdul Qadir Mushtaq
Director

The Directorate of Career Counseling & Alumni Affairs (CC&AA) consolidates the bond between alumni and their alma-mater. It provides graduates with career help in person and online. Through counselling, advice, and specially created facilities for student learning and wellbeing with reference to their profession, it offers exciting and high-quality services. It combines their talents and interests for a prosperous future. Additionally, it links the departing students with the fellows who are still enrolled so that they may exchange experiences and success stories. It plans events such as alumni dinners, workshops, awareness campaigns, career lectures and alumni sports.

Mission

The directorate's mission is to foster a sense of community and pride among alumni while providing a platform for students to self-examine, set career goals, and be helped in their lifelong career paths. It also aims to connect current students with successful alumni while providing high-quality services and counselling to them. Since 2017, the office has been operating effectively.

Objectives

- To assist students in securing their jobs
- To train them in preparing their resumes, curriculum vitae, statement of purpose, job applications and job interviews
- To give them a forum where they may share their recollections with former and current students.
- To enable students to make enduring, accountable and significant choices in a global and vibrant world
- To enrich students with leadership qualities to serve the nation enthusiastically

3. ADMISSION CRITERIA

All the admissions will be made according to the admission policy given in the prospectus.

4. DURATION OF SEMESTER FOR REGULAR PROGRAMS

There shall be 2 semesters (Fall and Spring) of 18 weeks during each Academic Year; followed by a summer semester of 8 to 12 weeks. The commencement of semesters will be regulated by the Director Academics.

(Explanation: Out of 18 weeks of a semester, 16 weeks shall be actual teaching durations; the rest may be utilized for enrollment, the conduct of examinations and declaration of results, etc. and likewise, out of 12 weeks of a Summer semester, 06-08 weeks shall be actual teaching time; the rest of the duration may be utilized for enrollment, the conduct of examinations and declaration of results, etc.).

5. CREDIT HOURS FOR UNDERGRADUATE AND GRADUATE DEGREES

5.1 A credit hour means teaching/earning a theory course for one hour each week throughout the semester.

Course	Duration of Class
Theory Course of 03 Credit Hours	3 classes of 01 hour per week Or 2 classes of 1.5 hours per week
Practical (Lab)Work/Field Work of 01 Credit Hour	02 to 03 contact hours per week

5.2 One Credit Hour in laboratory or practical work/project would require lab contact of two to three hours per week throughout the semester.

5.3 The credit hours are denoted by one digit before and two digits within brackets with a hyphen/plus in between. The first digit represents total credit hours and first digit (left side) within brackets the theory part while the second (right side) digit represents the practical. Thus 3(3-0) means three credit hours of theory, while 4(3-1) means a total of four credit hours, of which three are of theory while one credit hour is for laboratory/studio work/field work/practical work supervised as mentioned above.

6. REPLICA/SELF-SUPPORTING PROGRAMS

The same rules and regulations of the regular semester with certain modifications (fee, age and session etc.) will be followed for Replica/Self-Supporting Programs.

7. EXECUTIVE PROGRAMS

Executive education is an important tool for professionals to nurture top leadership talent. It offers to professionals knowledge to enhance skills and gives them an opportunity to refresh and gain new perspectives. In a competing job environment, professionals will continue to look for ways to stay ahead of the crowd and make meaningful change, ensuring the continued need for high-quality executive education. Considering the importance, GCUF offers the executive programs with the following recommendations:

- Lab based programs/courses are not the part of executive programs.
- The program duration will be 3 years extendable to 4 years.
- Candidates having job experience (public or private organizations/institutions/industry) of minimum 02-03 years are eligible, depending upon the requirement of program.
- 6 to 9 credit hours will be offered in each semester of course work.
- A prescribed fee per credit hour will be charged.
- Number of seats shall be determined as per university rules of the respective programs.
- Classes will be conducted during evening hours, including weekend days, if required.

- 20.5.7 Provisional announcement of the result of a program will be made by the Controller of Examinations.
- 20.5.8 Final Notification of the results shall be made by the Controller of Examinations by displaying on the University Notice Board / Gazette / University Website

20.6 GRADE POINT AVERAGE

20.6.1 Grade point and equivalence between letter grading and numerical grading shall be as follows:

Grade	Value	Marks (%)
A	4.00	85% or above
A-	3.75-3.95	80% to 84%
B+	3.35- 3.70	70% to 79%
B	3.00-3.28	65% to 69%
B-	2.70-2.94	60% to 64%
C+	2.35-2.63	55% to 59%
C	2.00-2.28	50 to 54%
C-	1.50-1.90	45 % to 49%
D	1.00-1.40	40 to 44%
I	(Incomplete)	
F (Fail)	0	<ul style="list-style-type: none"> • Less than 40% for undergraduate & master level programs. • Less than 50% for MS/MPhil/PhD.
W	(Withdrawn)	Will not be included in GPA calculation.
* There is no “C- “ & “D” Grades in Pharm-D, Electrical Engineering, MPhil and PhD programs.		
<p>In order to calculate the GPA, multiply Grade Point (next page) with the Credit Hours in each Course to obtain total grade points, add up to cumulative Grade Points and divide by the total number of Credit Hours to get the GPA for a Semester.</p> $\text{GPA} = \frac{\sum (\text{GP} \times \text{Credit Hours}) \text{ courses of a semester}}{\text{Total Credit Hours of a semester}}$		
<p>For calculating CGPA, sum total of GPs in a semester earned in different courses multiplied by respective credit hour of a course and divided by total numbers of credit hours.</p> $\text{CGPA} = \frac{\sum (\text{GP} \times \text{Credit Hours}) \text{ of all courses in a programme}}{\text{Total Credit Hours of all courses in that Programme}}$		

20.6.2 Grade point (GP) shall be determined on the basis of numerical grade in the following table:

Percentage Marks	Grade Point (GP)	Percentage Marks	Grade Point (GP)	Percentage Marks	Grade Point (GP)	Percentage Marks	Grade Point (GP)
Grade “D” Range of Numerical value		Grade “C+” Range of Numerical value		Grade “B+” Range of Numerical value		Grade ‘A’ Range of Numerical value	
40	1.0	55	2.35	70	3.25	85.0 and above	4.00*
41	1.1	56	2.42	71	3.30		
42	1.2	57	2.49	72	3.35

50	2.0	65	3.00	80	3.75		
51	2.07	66	3..05	81	3.80		
52	2.14	67	3.10	82	3.85		
53	2.21	68	3.15	83	3.90		
54	2.28	69	3.20	84	3.95		

*Students who secure 90% or above would be placed in the Deans Honor list.

Note: Fraction in obtained percentage marks of a course will be rounded to the next whole number. i.e. 52.1% and 52.9% rounded to 53%.

20.6.3 If a student fails to obtain prescribed CGPA at the end of each Semester his/her admission shall stand cancelled. However, the student may seek fresh admission

20.6.4 The following CGPA is required to retain admission in a program and successful completion

For Undergraduate Degree Programs:

- After first Semester required CGPA is 1.70
- For the completion of academic program, the required CGPA is 2.00.

After final examination of a semester, a student, who obtains CGPA less than 1.70, he/she will be dropped out from University rolls.

And if a student, who obtains CGPA 1.70 but less than 2.00, he/she will be promoted on probation (This para should be read in conjunction with 21.7).

However, for undergraduate programs, if a student is dropped out in 6th semester, then two years Associate Degree in the concerned area of study will be awarded to him/her.

For MS/MPhil Degree Program

- At the end of the two semesters, a student must obtain a minimum Cumulative Grade Point average (CGPA) 2.50.
- A student, who obtains CGPA 2 or more but less than 2.30 upon the completion of course work, may be allowed to repeat maximum two courses of the lowest grades in order to improve the CGPA and to obtain the minimum of 2.50, failing which the student shall cease to be on the rolls.
A student who student who obtains 2.35 CGPA, after the completion of course work will be allowed to start research.
- Only those students who score CGPA = 2.5 will be awarded MS/ M.Phil Degree

For PhD Degree Program

- At the end of the course work a student must obtain a minimum Cumulative Grade Point average (CGPA) 3.00.
- If a student obtains CGPA 2.70 or more but less than 3.00 at the end of course work, he/she may be allowed once to repeat maximum two courses of the lowest grade / failed courses, or take the additional course(s).
- A student, who obtains CGPA less than 2.70 shall cease to be on the rolls.

20.7 PROMOTION and PROBATION (Undergraduate Programs)

- 20.7.1 At the end of semester, the student with Cumulative Grade Point Average (CGPA) of 1.70 or more but less than 2.00 shall be promoted to the next semester on probation.
- 20.7.2 A student with a GPA/CGPA below 1.7 is automatically dropped from the University rolls.
- 20.7.3 However, at the end of 5th and 7th and subsequent semesters, a student with a CGPA below 1.7 (after availing the maximum chances of probations and summers), he/she shall cease to be the student of the University. However, such a student may apply for an Associate Degree if eligible as per rules.
- 20.7.4 There shall be two probations allowed for BS in an academic Program.
- 20.7.5 A student who has been declared to be dropped out may be re-admitted to the first semester as a fresh candidate

20.8 REQUIRED CREDIT HOURS AND DURATION OF DEGREE PROGRAMS

Following is the minimum and maximum duration of academic programs.

DEGREE PROGRAM	CREDIT HOURS	DURATION	
		MINIMUM	MAXIMUM
Under Graduate Program (BS and BBA etc.)	130	4 Academic Years	6 Academic Years
Under Graduate Five Year Programs LLB, Pharm D	164	5 Academic Years	7 Academic Years
Masters Programs (MA, M.Com. and MSc etc.)	66 to 72	2 Academic Years	4 Academic Years
MS/M.Phil., MBA and LLM etc.	30 (Minimum 24 credit hours of course work + 06 credit hours of thesis)	1.5 Academic Years (Full Time Student).	04 Academic Years* (Full Time Student).
		3 Academic Years (Part Time Student).	04 Academic Years* (Part Time Student).
PhD Programs	Minimum 18 Credit Hours Course Wok + Research Thesis (after qualifying the comprehensive examination) .	3 Academic Years [Minimum course work duration will compose of two semesters (1 year)].	(07+1) 08 Academic Years*

* Extension for a specific period in cases of M.Phil after 2 years and in PhD after 5 years will be granted on full justification, a progress report by the Supervisor and recommendation by the AS&RB only to those students who maintain their student status and are not absconders. Finally the extension if fully justified should be 5+2 and the 8th year should be for examination, result etc. purpose only. To provide sufficient time for thesis evaluation process, examination and result etc., the thesis should be submitted earlier than 14th semester. Both student and his/her supervisor are responsible to complete every task within 7 years.

21.9 REQUIREMENTS FOR THE AWARD OF DEGREE

Within the framework of General Rules/Regulations for the award of a graduate or a postgraduate degree special/specific rules may be applicable to certain degree programs. These rules may be issued by the University in order to ensure quality standards and performance of the candidates. Candidate will be awarded the relevant degree, provided that he /she has

8. Entry test is compulsory for admission in all programs. The BS applicants can avail HEC-USAT or GCUF entry test. The 50 % marks will be required for qualifying. For Fine Arts the candidate will have to pass the aptitude test conducted by the respective Department. For LLB, Entry Test (LAT) conducted by HEC is Compulsory for admission. The applicants are required to have passed the LAT test prior to the advertisement's closing date. Details of the test will be provided on the website for candidates.
9. The entry test is compulsory for admission to the BS Electrical Engineering (as per PEC regulations) and Bachelor of Engineering Technology (abbreviated as B.E.Tech.) programs (as per NTC regulations) conducted by GCUF/ UET Lahore/ NED-UET, Karachi, MUET, Jamshoro/ NUST Islamabad/ NTS / ETEA or Any other existing recognized entity conducting an entry test.
 - a) The merit calculation for the provisional admission to BS Electrical Engineering Program is as follows:

(FSc / ICS/ A-level) 1st Year / DAE 2nd Year / or equivalent = 50% weightage

Entry Test = 33% weightage.

Matric/O-level = 17% weightage
 - b) The formula for merit calculation for admission in B.E.Tech. programs (with a minimum of 33% entry test marks as per NTC regulations) is as under

DAE 2nd Year / (A-level / FSc / ICS) 1st Year or equivalent = 70% weightage

Entry Test = 30% weightage

- c) For Bachelor of Engineering Technology (abbreviated as B.E.Tech.) admissions, 50% seats are allocated for DAE and 50% seats are allocated for FSc (Pre-Engineering or Pre-Medical with the additional subject of Mathematics)/A-level/ ICS or equivalent as per NTC regulations. This distribution may be relaxed as per requirement.
 - d) For FSc. Pre-Medical without additional Mathematics, admission (to BS Electrical Engineering and all B.E. Tech programs) will be granted on a conditional basis, provided the applicant passes an additional Math crash course taught by the university after admission, as per regulations of PEC and NTC.
 - e) Admission to the BS Electrical Engineering and B.E.Tech. programs will be confirmed after the announcement of the final DAE/ A-level/ F.Sc/ ICS or equivalent result. The applicant must submit an affidavit that if he/she is unable to meet any of the PEC/ NTC requirements, his/her admission will be cancelled and paid fees will be nonrefundable.
 - f) For admissions of A-level candidates, students should have at least a "C" grade in Physics, Mathematics, and Chemistry.
 - g) In case of a foreign qualification, the letter grade will be converted to marks by IBCC formula. IBCC equivalent certificate is required to be submitted as per admission policy.
10. In case of degree programs where DAE is applicable, 2% seats shall be fixed for the candidates who have passed DAE. However, there will be no quota for BS Physics, Pharm- D and Law.
11. For all Morning and Replica Programs 10 seats are reserved on Bench fee that can be converted to open merit by admission committee if not occupied by bench fee candidates.
12. For admission in B.Ed (1.5 year) the candidate must have passed M.A/M.Sc/BS other than Education and B.Ed.(1.5 years) will be a prerequisite for MPhil Education. There will be 5 maximum marks of experience in merit calculation for B.Ed (01 mark for each year of experience at time of interview).

Provided further that penalties, shall be approved by the Competent Authority on the recommendations of Discipline Committee and shall be notified by the DSA.

(2) Notwithstanding anything contained in Regulation 6(1), the Competent Authority may dispense with inquiry and award any penalty specified in Regulation 5, where, in particular circumstances/emergency, it is considered that the breach/violation of these Regulations is proved, hence, there is no need to hold an inquiry. In such an eventuality, the Competent Authority or an Officer authorized to do so, may immediately approach any law enforcement agency and/or impose any minor or major penalty without observing formal procedure(s) mentioned hereinabove to avert any injury/loss to the human lives, public property and the integrity of the University, the country or any part thereof, as the case may be:

7. INFORMATION TO PARENTS/GUARDIAN/OTHERS CONCERNED

Acts of indiscipline and misconduct committed by the University student(s) and penalties imposed under these Regulations may be intimated to the parents/guardian of the student(s) concerned.

8. PAYMENT OF FINE

In case of imposition of fine, the DSA shall issue a voucher in the prescribed manner and the fine shall invariably be paid by the offender within ten(10) days from the issuance of its notification. The original Bank Deposit Slip showing payment of fine shall be submitted to the Office of the DSA as well as respective Dean/Director/ Principal concerned within due date, failing which the name of the defaulter student shall be suspended/struck off the University rolls by the Faculty/Institute/ College concerned. The defaulter student(s) shall not be entitled to file an appeal until he/she deposits the amount of fine.

(2) In case, on the appeal of a student, fine is remitted or reduced, the amount of fine/its balance may be refunded to the student concerned by the Treasurer's office

9. RECOVERY OF LOSS OR BREAKAGE OF PROPERTY

A student shall be liable to make good the loss caused by him/her to the University property within fifteen (15) days of the notification. Failure to make good the loss shall be considered an act of indiscipline and misconduct. The name of such a student shall be suspended/struck off the rolls for failure to make good the loss, and legal proceedings may also be initiated against him/her in a Court of Law

10. PLACING ON PROBATION

A student may be placed on disciplinary probation by the Competent Authority for a specified period that may be extended if the student fails to improve his/her conduct. Continued failure to improve the conduct may lead to further disciplinary action

11. SUSPENSION FROM ROLLS

A student may be suspended from the University rolls for a period not exceeding two weeks at a time. Such a student shall pay the normal fine of absence for the period of suspension. A student suspended from the rolls may be reinstated or his/her period of suspension may be extended, as the case may be, by the Competent Authority. The period of such suspension shall be considered as absence from classes and shall have bearing on the fulfilment of attendance requirements for examinations

12. RUSTICATION

A student found guilty of committing an act of major indiscipline and misconduct may

be rusticated for one academic year which shall mean the loss of one academic year to the rusticated student in so far as his/her appearance in the University examinations during that academic year is concerned

13. EXPULSION

A student found guilty of committing an act of major indiscipline and misconduct may be awarded the penalty of expulsion from the University.

14. NOTIFICATION OF RUSTICATION OR EXPULSION

The notification/order etc. of rustication or expulsion shall be issued by the DSA, with the approval of the Vice Chancellor, and such student(s) shall be struck off the rolls of the University.

15. RE-ADMISSION OF RUSTICATED STUDENT

The Faculty/Institute/ College concerned may re-admit a rusticated student, if he/she wishes to re-join the University after serving the penalty period. He/she is required to submit an application in the Office of the respective Dean/Director/Principal concerned well before the commencement of the semester. The application should include an undertaking on stamp paper of Rs.200/- or more signed by the student and countersigned by his/her parents/guardian, Supervisor concerned and DSA, as the case may be, to abide by the Regulations/Rules of the University and not to repeat any act of misconduct and indiscipline in future. If he/she fails to avail the chance immediately after serving out penalty period, he/she can seek re-admission in the same semester of the next academic session/semester according to the approved 'Scheme of Studies', as the case may be. In case a student avails neither of the admissible opportunities, he/she shall lose eligibility for re-admission in future

16. STUDENT(S) AWARDED THE PENALTY OF EXPULSION

An expelled student may avail the remedy of appeal or review as provided under Sections 17 and 18 of these Regulations.

(1) A student upon whom any minor/major or both penalties has/have been imposed may, within fifteen (15) days from the receipt of the order, file an appeal against that order to the Appellate Authority i.e. Vice Chancellor.

(2) The Vice Chancellor, in consultation with the Discipline Committee, may dismiss the appeal or acquit/pardon the appellant, or order a fresh inquiry, or reduce or enhance the penalty or suspend the punishment for a specific period conditionally to be re-imposed immediately on evidence of his/her involvement in acts of indiscipline or otherwise.

Provided that no recommendations/decision under this Regulation shall be made, unless an affected student is afforded an opportunity of being heard in person.

Provided further that where the appellate authority decides to enhance the penalty, it shall:-

- (a) by an order, in writing, inform the accused of the action proposed to

- (b) be taken and the grounds of such enhanced punishment.
given him/her a reasonable opportunity to show cause against that action

17. APPEAL AGAINST THE PENALTY

A student upon whom any minor/major or both penalties has/have been imposed may, within fifteen (15) days from the receipt of the order, file an appeal against that order to the Appellate Authority i.e. Vice Chancellor.

(2) The Vice Chancellor, in consultation with the Discipline Committee, may dismiss the appeal or acquit/pardon the appellant, or order a fresh inquiry, or reduce or enhance the penalty or suspend the punishment for a specific period conditionally to be re-imposed immediately on evidence of his/her involvement in acts of indiscipline or otherwise.

Provided that no recommendations/decision under this Regulation shall be made, unless an affected student is afforded an opportunity of being heard in person.

Provided further that where the appellate authority decides to enhance the penalty, it shall:-

- (a) by an order, in writing, inform the accused of the action proposed to be taken and the grounds of such enhanced punishment.
- (b) given him/her a reasonable opportunity to show cause against that action.

18. REVIEW AGAINST THE ORDER ON APPEAL

(1) The punished student(s) may apply for review of the orders passed on his/her appeal, if contrary to the pray to the Vice Chancellor, in the case of minor and/or major penalties, within a period of fifteen (15) days from the receipt of the orders. The Vice Chancellor may pass appropriate orders thereupon on the basis of evidence, available record and decision taken earlier on the appeal of the concerned student(s). If appropriate, the Vice Chancellor may seek advice of the Discipline Committee on the review appeal(s) before passing suitable orders.

(2) If a student, whose penalty was suspended under Regulation 17(2), is again found involved in act(s) of indiscipline and misconduct and is awarded fresh penalty along with the re-imposition of previous suspended penalty, he/she may appeal against the fresh penalty only, to the Vice Chancellor within the prescribed period of fifteen (15) days. He/she may also request for review of the orders passed on his/her appeal against fresh penalty, as provided under Regulation 18(1).

Prof. Dr. Rauf-i-Azam, currently Vice Chancellor of Government College University Faisalabad, earned his Master's and MPhil degrees in Mathematics from Quaid-i-Azam University Islamabad followed by a PhD, in Information Systems, from Nara Institute of Science and Technology, Nara, Japan. Since the completion of his PhD in 1998 he has been involved with teaching, research, consulting and other similar activities in the realm of knowledge economy. He is a distinguished educationist with vast experience in teaching, research, administration and institutional development. Previously, (from 2021 to 2024), he served as the founding Vice Chancellor of the Punjab University of Technology Rasul, Mandi Bahauddin. In this role he worked to develop a new university leading all the activities ranging from planning to execution of a large development project worth more than Rs.6.208 billion. He has also served as Pro-Rector at the University of Lahore, one of the largest universities in the private sector. Earlier, (from 2015 to 2019), he served as the Vice Chancellor of the University of Education Lahore, where he was instrumental in designing and implementing a comprehensive reform agenda improving the quality of education through improvements in faculty, curricula, operational efficiency, institutional environment, use of technology and many other institutional aspects. Prof. Dr. Rauf-i-Azam is of the view that as universities are the places where future of a nation is built, they should present a living model where competence is nurtured, responsible citizenship is practiced, diversity is respected, and learning is a continuous pursuit – in short, the universities should present a model of a society that we desire to build and live in.

Department of Applied Linguistics

Phone: 041-9200158
Email: masimrai@gmail.com

Vision

Our vision is to be among the best Applied Linguistics departments in the world by producing world class graduates and scholars well versed in both theoretical and applied aspects of language studies, teaching and research, particularly, to enable the learners to cope with the radical changes taking place in the third world. The Department stimulates humanistic learning and the capacity to respond rationally and imaginatively to second and foreign language learning through the advancement of knowledge, skills and human creativity in the merging scenario of globalization.

Mission

Applied linguistics generally incorporates several identifiable subfields: for example, corpus linguistics, forensic linguistics, language testing, language policy and planning, lexicography, second language acquisition, second language writing, and translation and interpretation. The mission of the Department of Applied Linguistics at Government College University is to:

- Produce knowledge through research on all aspects of linguistics and language use including language teaching, language and business, language and society, language policy, language and the deaf, language and culture, language and law, language and politics etc.,
- Train students to appreciate the nature of language in general and regional languages in particular, and their role in the development of the society,
- Prepare our students to take up prominent roles and provide solutions in all aspects of public life where language expertise in all forms is called for.
- The term 'applied linguistics' refers to a broad range of activities which involve solving some language-related problem or addressing some language-related concern. It has earlier

appeared as though applied linguistics, at least in North America, and was first officially recognized as an independent course at the University of Michigan in 1946. Now, it has become an independent department in all over the world universities. The objective of the department of Applied Linguistics Government College University is to produce intercultural harmony with the collaboration of worldwide famous universities.

Introduction

The Department aims at serving the nation by filling the gap of expertise in language-related studies in the country, directing its special attention to qualitative improvement in the profession of language teaching/learning and language-analysis through field-specific research. The Department seeks to join hands with the HEC in paving the way towards the common goals of achieving excellence in language-related studies/research and embarks upon this enterprise in conjunction with the centers sharing similar aspirations.

In order to realize its aims, the Department offers specialized courses at different levels such as BS (Hons) in English Literature & Linguistics (Morning & Evening), MA English Linguistics & Literature (Morning & Evening), MPhil in Applied Linguistics and PhD in Applied Linguistics. Our spirited team aims at providing students with an understanding of the theoretical and empirical foundations of various disciplines of linguistics and applied linguistics, enabling them to develop an informed and critical awareness of the issues of linguistic problems, their analyses and the solutions with innovative techniques. Above all, the students are trained to seek relevance and applications of theoretical perspectives in the national context. Alongside academics, the Department organizes various events to enhance its students' competencies in educational as well as social life. The students

Department of English Literature

Phone: 041-9201413

Email: engliture@gcuf.edu.pk

Vision

The Department aims to stimulate humanistic learning and the capacity to respond rationally and imaginatively to literature and life. Through the advancement of knowledge, skills and human creativity, the Department prepares students to be independent, enlightened thinkers aiming to work as professionals and opinioned leaders of tomorrow.

Mission

The mission of the Department of English Literature at Government College University is to inspire an appreciation for the English language and its literatures, and to cultivate its effective use in creative expression and day-to-day life. The Department strives to enhance student success by fostering an environment conducive to intellectual and personal growth and aims to preserve and protect academic freedom and intellectual independence. It provides a forum for critical inquiry and debate. Our mission is to instil in the students a spirit of critical inquiry with a capability to look beyond their parochial surroundings and analytical vision to place and define themselves in the wider social, cultural, political and ideological environment. Through our extensive curriculum, we aim at the development of an educated and enlightened population capable of informed judgment and responsible citizenship and the availability of persons who have the knowledge, skills and adaptability required by public and private enterprise.

Introduction

The Department of English Literature is one of the leading departments of the University with a rich history of excellence,

quality teaching and research spanning over decades. The Department has always been committed to the symbiotic relationship of teaching, research and the larger concerns of society. The Department of English seeks to address the diverse needs of its students by offering them the opportunity to read widely, understand and enjoy what they read, and to express themselves both orally and in writing with ease, force and clarity. The English Department maintains its strong commitment to traditional areas of study, while also supporting groundbreaking research and teaching in new and interdisciplinary approaches to literary studies.

The Department grants BS, M Phil and PhD degrees. We are one of the largest departments in the university with 28 regular & more than 50 visiting faculty members. The Department of English caters for the needs of other departments related to English language, hence maintaining close ties with other departments. English Department teaches across the whole range of English literature and language studies including English Translation Studies. Our aim is to provide students with a stimulating environment in which to develop skills in all areas of English.

Vision

We aim to be a leader of the disciplines of social sciences by developing analytical tools excelling in teaching, scholarship and exploiting opportunities for academic research.

Mission

To make the discipline of history an excellent part of social sciences for the students by inculcating a curiosity for raising and sorting out solutions to questions about the complex past of humankind. Thus, enabling them to become productive parts of the society. The department instills the students with a passion for in-depth knowledge and skills to understand phenomenon of the human experiences by a comparative study of the past and present societies cultures and Civilizations.

Introduction

The discipline of History was launched by bifurcation of already existing Department of Pakistan Studies and Political Science that was in 2011 renamed as the Department of History and Pakistan Studies. This department was further bifurcated in two independent departments i.e. History and Pakistan studies.

As history focuses the actions and deeds of the human beings, therefore, it studies the past societies, cultures and events caused by human beings in particular time and space. The Department of History specifically deals with those societies, cultures and events with reference to the temporal and special dimensions. Besides the core subjects of History, Historiography/Philosophy of History and Research Methodology, the department imparts learning and understanding in a wide range of subjects and topics, such as social, cultural, geographical, political, economic and religious contours. The Department of History exclusively offers the courses of history, therefore, it also envisions in the

near future to offer the neglected courses of the history of designing, history of art and history of architecture and History of Archives. The department believes to teach the courses in a way to enable the students to draw lessons from the past experiences of human beings and to help the contemporary society in correcting its course of action.

The goal and objective of the faculty of the Department of History is to create a conducive environment for the students to polish their skills and become experts in carrying out quality research in the discipline of History. The horizon and spectrum of the discipline of history is very broad and it encompasses various periods, epochs and events. It covers the histories of geographies, topographies, areas, regions, continents, wars, religions, governments, elections, constitutional developments, economies, movements, personalities, concepts, languages, literature, cultures, civilizations, writings, medicines, food, arts and paintings. Being multi-disciplinary in nature, history is connected with all other social sciences as they deal with the actions and deeds of human beings within the society and has come out from the lap of history itself. History shares concepts and ideas with these various disciplines and in return borrows from them. Keeping in view, the faculty of the Department of History intends to teach the subject from that broader perspective. Besides, the Department aims at, the promotion of factual and interpretive history, curiosity to find the truth, generalization, objectivity, unbiased and unprejudiced approach, and curiosity to find the truth. For the pursuit of enhancing conceptual and intellectual capabilities of and activities of the students, the Department has a functional Society and Study Circle. That is why the Department is growing and flourishing day by day in size and performance.

Department of Information Management

Phone: 041-9201563

Vision

As we are living in the era of information explosion, millions of documents are created in seconds and it is approximately impossible for a user to search its needed information without using advanced search strategies. Therefore, it is the need of the hour to enable the students to search, locate, retrieve, use, disseminate and store information. The department seeks to produce information managers, who can guide the students, faculty, and researchers to meet their information needs.

Mission

To equip the new generation with the methods and strategies which enable them to search, recognize and disseminate the needed information to their patrons. As reliable, valid, and authentic information is of key importance for a prosperous society, therefore the main objective of the department is to produce a team of information and library professionals who can cater to the information needs of their target audience.

Introduction

Libraries and information centers play a vital role in the educational, economic, and social development of the nation. Libraries offer educational, research, and scientific services to accomplish social needs, and help people flourish. The present era has fetched a lot of variations not only in the field of library and information services but it has changed the role of information managers.

The department of Library and information science was established in 2012 and initially, the programme Master of Library and Information (MLIS) was approved. However admissions to MLIS were started first time in spring 2015, under the Distance Learning Education (DLE)

Programme. Until now, four batches of MLIS students have completed their studies, and passed out students are providing services in various Government and private institutions. The MLIS programme was discontinued as per the HEC policy in 2018. As there was no library school in the Faisalabad region therefore the students had to travel to Lahore and Sargodha for seeking admissions in MLIS and BS Information Management (IM). Keeping in view the interests and demands of the people of the Faisalabad region the Vice Chancellor Prof. Dr. Shahid Kamal very graciously approved to start the BS IM programme under the faculty of arts and social sciences.

Department of Mass Communication

Phone: 041-9201415

Email: masscom@gcuf.edu.pk

Vision

To groom the students for career oriented approaches in the field of Media studies and prepare them to be true professionals and researchers. The department seeks to inculcate the values of truth, objectivity and impartiality among the students so that they may perform their roles as disseminators of knowledge and makers of opinion without any bias and prejudice.

Mission

To promote healthy and positive approach towards the better understanding of information, knowledge and opinion building.

Introduction

Communication and media studies have gained vital importance in this age of science and information technology. A nation cannot safeguard its domestic and foreign interests, and get its due status in the globe without using its communication channels effectively. Advancement in information technology has made the world a global village. So, it is the need of the hour to give special focus on mass media education. Although Mass Communication is an emerging discipline, yet, it has got paramount importance in recent times. Media is playing a vital role in promoting different ideologies both in the domestic arena and around the globe. It is a reality, that a plenty of factors influence the production and consumption of the message for effective communication. The productions of media contents have to pass through different phases. Therefore, in-depth understanding of covert and overt pressures on the production of the media contents is

indispensable for the students of Mass Communication. Public Relations, Communication Strategy, Advertising Campaign, Media Policy, Image Building and Public Opinion Formation are the basic tools of communication in media studies. The department has an excellent academic environment. All the faculty members are experienced and qualified. Students are also being benefited from the expertise of media educators and known professionals. All University facilities; transport, hostel residence, main library membership, study, excursion tours and sports facilities are available for the students.

Vision of Department of Mass Communication is to be a leader in Pakistan by providing communication excellence in visual, verbal and written competencies for the 21st century. Shortly, a print production house, a broadcasting house and TV studio will be set to impart practical skills to the working journalists and students alike. After the completion of their courses, students will be able to become professionals in public relations, advertising agencies, print and electronic media, as reporters, editors, anchors persons, radio producers, TV producers, media managers, public relation officers, publicity officers and copy writers.

A well-equipped and technical video lab has been established for practical work of the course.

Vision

To be a leader among other disciplines of social sciences at institutions of comparable size and character through excelling in teaching, scholarship and counseling and exploiting opportunities for academic research, experimental learning and off-campus study; the Department promotes scholarship, discipline and civic participation.

Mission

The Department of Pakistan Studies is dedicated to the pursuit of academic excellence and diversity. The department strives to polish the students' intellectual curiosity with a focus on tools to assess and solve complex problems and inculcate skills to become independent and motivated decision-makers.

Introduction

The Department of Pakistan Studies was established in 2003. The Department offers programs i.e Bs, Mphil and PhD in Pakistan Studies. It aims to impart deep learning and understanding of the historical, social and cultural, political and economic contours of the state and society of Pakistan. It also attempts to orientate the students towards the institutional strengths and weaknesses of the government in order to reinforce its strengths and correct what we may call our deficiencies.

We envisage making the department as a center of excellence of Pakistan Studies with the aims of producing capable experts and quality research in the subject of Pakistan Studies. The Department has launched PhD program. Pakistan Studies is an inter-disciplinary subject and it offers courses which have close affinity with and understanding of other subjects of Social Sciences such as Economics, Sociology, History, Political

Science, International Relations and Pakistani languages and their literature. We are trying our best to encourage and prepare the students for the exploration, analysis and advancement of research on the issues besetting Pakistan internally and externally. In this regard, the authorities of the university are planning to establish a Research Centre in near future which would not only concentrate on the basic issues of Pakistani state and society but also examine and boost the prospects of peace in South Asia and suggest ways and means to promote harmony and stability in the region.

Department of Political Science

Phone: 041-9201211

Email: political.science@gcuf.edu.pk

Vision

The vision of Department of Political Science is to enable students to analyze political structure, political systems, institutions, and to enhance awareness of political science by promoting theoretical knowledge of political theory and comparative political systems, international relations, international and regional organizations, political parties and interest groups, state issues, contemporary international issues as well as scientific disciplines and branches of study. For productive and effective human resources development, nationally and internationally, emphasizing over competitive, independent and cultural thinking, the department is open to work with national and international research oriented institutions.

Mission

The mission of department is to provide conducive learning environment in which students can conduct rigorous intellectual research, develop analytical skills, and gain a comprehensive understanding of the political process at the local, national, and international levels. The department seeks to educate students to become leaders who are able to address complex issues in a rapidly changing world using multidisciplinary approaches, innovative research, and hands-on learning opportunities. The department is dedicated to promote diversity, inclusion and dialogue, as well as providing insights useful for discussions on governance, diplomacy and international affairs. The department prepares students for careers in government and

non-government organizations by teaching them analytical skills.

Introduction

Political science is one of the most important social science disciplines in a rapidly changing world. The Department of Political Science at Government College University Faisalabad has a rich history of academic excellence, dating back to 2009 when it was established with a Master program in Political Science. Since then, the department has grown and evolved to meet the changing needs of time and accomplish the same to students and academic community. This was followed by the launch of the BS Political Science program in 2010, providing students with a comprehensive education in political theory, political institutions, and processes. In 2011, the department launched the M.Phil Political Science program, catering to the needs of students seeking advanced research-based education. The department continued to expand its offerings with the introduction of the M.A International Relations program in 2012, focusing on global politics, diplomacy, and international relations. In 2015, the department started the Ph.D. Political Science program, providing students with advanced research training and expertise in political science. The department further expanded its undergraduate programs with the launch of the BS International Relations program in 2016 and the BS Politics and Parliamentary studies (PPS) program in 2016. The department is dedicated to develop a deeper understanding of ideologies, international relations, public policy, human rights,

and economic development, governance and their impact on society. Ultimately, it serves as valuable tool for understanding our ever-evolving global political environment, both locally and internationally. Political science as an academic discipline also provides valuable perspectives on gender issues, social movements, minority rights, and civil society throughout the world. It bridges across differences and create more sustainable paths toward peace, diversity, stability, and justice. With a strong emphasis on critical thinking, research, and community engagement, the department prepares students to become active and well- informed citizens, policymakers, and future leaders in a rapidly changing world. Our experienced faculty and vibrant academic community create an environment for intellectual growth and discovery.

Vision

To enable the students through teaching and research to develop their bright future.

To highlight the social issues and address them through the research and maximize the social development.

Mission

Sociology is systematic study human behavior in a society. Moreover, sociological knowledge provides social and cultural guide line to the students in their practical life. This is being achieved by imparting knowledge and skills to young sociologists-social engineers and social workers. Moreover, efforts are made to discover the broad pattern of interaction of social life that influences the social behavior. This is further strengthened by carrying out research on socio-economic, cultural, social, demographic, environmental and political problems of Pakistani Society.

Introduction

Sociological knowledge is applicable in every field, in every day personal interactional situation and in all aspects of life. Sociology is the scientific study of the human relationships and their consequences. It is the study of collective human behavior and social forces. It is committed to provide research skills to students that can be integrated usefully with relevant practical experience. Sociologist seeks to discover the broad patterns of interaction of social life that influences social behaviors. We provide students with a coherent introduction to core themes

and issues of the discipline in a stimulating environment. Moreover, we offer graduate and post graduate level education in social sciences with a strong emphasis on communicative process and technologies within institutional settings, drawing on the active research interest of faculty and students. We also offer education in social sciences within an interdisciplinary context which highlights the continuities and differences among a number of scientifically social prospective. Training in a range of methodologies and research skills appropriate to these disciplines provides rigorous foundation for this distinctive feature. In addition, internship opportunity with international and national organizations working in the field of social development is provided to the students in order to blend the academic knowledge with practical skills.

This department was established in 2005 at Government College University Faisalabad. The faculty of the Department includes highly qualified and experienced teachers who have a track record of academic and research experience and relevant field experience in national or international organizations. In addition, short certificate courses on different social development aspects like Poverty Alleviation, Gender and Development, Human Development and Sociology, Communication and Presentation Skills, Community Management Skills, Urban Transportation Management, Urban Renewal, Participatory Relax/Rapid Approach (PAR), Project Planning and Logical Framework, Population Studies, and Social Problems of Pakistan etc. are being planned to be launched very soon.

Vision

The vision of the Institute of Art & Design is to promote both art and aesthetic sense to fulfill the demand of national and international requirements. Our vision is to represent the diverse artistic traditions, for the inspiration and education of the public in accordance with our profession's ethical standards and practices.

Mission

The mission of the Institute is to formulate an artistic and educational community that values creativity, innovation, and conceptual tracks. The institute craves to temper craftsmanship with discipline and knowledge in the field of Art & Design.

Introduction

Institute of Art & Design offers 4-year degree, Bachelor of Fine Arts (BFA) with specialization (Fashion Design, Textile Design, Graphic Design and visual Arts). Studio teaching at the institute is supported by well-equipped laboratories, broadband internet access, a sculpture workshop, photography and print-making studio, weaving lab, sewing lab, pattern lab, drawing lab, a library, and well-equipped computer lab.

Textile Design

The objective of the Textile Design major is to introduce a broad range of Textile processes and theoretical perspectives on which to base the practice of textile design. It also develops the skills necessary for researching and originating contemporary textile themes and creating fabric prototypes and samples.

Textile Design is concerned with understanding and creating one of the most intimate and yet public aspects of the material

world. As technological and cultural creations, textiles and fundamental to the way we clothe, shelter and represent ourselves. As aesthetic expressions, textiles construct and communicate individual and social identities. Since the weather pattern of Pakistan mostly remains hot & dry, the focus of the majority of the designer is turning to launch individual brands in the field of Textile Prints for apparel, bedding and furniture prints. Therefore, it is pertinent for us to divert our curriculum in introducing the latest and innovative textile prints to attract industrial factors & demands.

Graphic Design

The term Graphic Design often refers to both the process (designing) by which the communication is created and the products (Designs) which are generated.

The faculty of Graphic Design at GC University Faisalabad focuses on number artistic and professional disciplines which lead to visual communication and presentation.

Various methods are thought to the students to create and combine symbols, images and words to create a visual representation of ideas & messages. Students use typography, visual arts and page layout techniques to produce the final result. To impart academic knowledge and give practical exposure to the students of Graphic Design to produce skilled manpower for advertising agencies and other sources of product promotion services.

Fashion Design

The Faculty of Fashion Design maintains close ties and continuously collaborates with the fashion industry to provide current students with high-quality professional training in tune with the needs of the current international fashion scene and

industry.

The objective of this course is the development of the creative talent of young people who plan to become professional fashion designers. It widens their abilities through research, observation and close examination of the methods for the creation of an innovation and individual fashion collection.

Visual Arts

The faculty of Fine Visual Arts is committed to the study and practice of the visual arts as these relate to creative art, educational practice and theory and the understanding of art in its diverse historical and cultural backgrounds.

Institute of Art & Design produces well equipped graduates, to meet the numerous overlapping skills currently demanded in professional art practice and theoretical discourse.

Prof. Dr. Rauf-i-Azam, currently Vice Chancellor of the Government College University Faisalabad, earned his Master's and MPhil degrees in Mathematics from the Quaid-i-Azam University Islamabad followed by a PhD, in Information Systems, from Nara Institute of Science and Technology, Nara, Japan. Since the completion of his PhD in 1998 he has been involved with teaching, research, consulting and other similar activities in the realm of knowledge economy. He is a distinguished educationist with vast experience in teaching, research, administration and institutional development. Previously, (from 2021 to 2024), he served as the founding Vice Chancellor of the Punjab University of Technology Rasul, Mandi Bahauddin. In this role he worked to develop a new university leading all the activities ranging from planning to execution of a large development project worth more than Rs.6.208 billion. He has also served as Pro-Rector at the University of Lahore, one of the largest universities in the private sector. Earlier, (from 2015 to 2019), he served as the Vice Chancellor of the University of Education Lahore, where he was instrumental in designing and implementing a comprehensive reform agenda improving the quality of education through improvements in faculty, curricula, operational efficiency, institutional environment, use of technology and many other institutional aspects. Prof. Dr. Rauf-i-Azam is of the view that as universities are the places where future of a nation is built, they should present a living model where competence is nurtured, responsible citizenship is practiced, diversity is respected, and learning is a continuous pursuit – in short, the universities should present a model of a society that we desire to build and live in.

Vision

To achieve broad and increasing recognition of the excellence of the programs among those offered by public and private institutions in the region and at the international level.

Mission

To provide high-quality education in economics through critical thinking and independent analysis for responsible living, leadership, and service

Introduction

Economists deal with scarcity and choices. In a society where resources are limited and cannot meet the demands put upon it, economists suggest guidance for steering the economy to hit the desired goals utilizing limited means with the prime objective of social welfare in all decisions. Economic theory provides powerful and often surprising insights into individual and social behaviors by providing a better understanding of a variety of contemporary issues.

The employment prospects for economists are very wide as the importance of economics is inevitable. Students who study economics here acquire problem-solving skills that are valued by government and business employers, skills that can be used to examine a variety of economic policy issues e.g., problems of unemployment and inflation, policy and project evaluation, the impact of monopoly power and regulation, the impact of foreign trade, and public intervention to deal with social problems like environmental pollution. Our department is well-known for its excellence in teaching and advising, and it has a strong reputation for producing innovative PhD graduates. The Department of Economics has developed curricula to become

competitive with the present day requirements. Formulation of policy alternatives by conducting solution-oriented research to assist the decision makers for uniform growth and developing manpower in line with the demands of local and international markets are the priorities of the Department. In this context, the Department of Economics is playing a key role to fill the gap of availability of human resources that are required to improve the momentum of economic growth and eradicate socioeconomic evils.

Vision

To achieve excellence in business education and transform students into skillful professionals.

Mission

Lyallpur business school is committed to cultivating an inclusive learning environment, seamlessly integrating indigenous knowledge with contemporary corporate needs. Through excellence in teaching and research, we equip students with managerial skills and make them responsible individuals.

Introduction

Since its inception, Lyallpur Business School has been exerting painstaking efforts to build marked reputation for producing business graduates fully equipped with professional excellence and excellent moral values. At LBS, the students are inculcated knowledge and skills through exceptionally talented and experienced faculty enriched in generating ideas coupled with experiential learning, exposure to real-time problems and hands on leadership/team work experiences synergized with foreign exposure. The outgoing graduates are enriched with the pivotal urge to lead, eager to explore and design practical solutions to everyday business problems/ opportunities. The prime focus of all programs at LBS is to groom the graduates into responsible personalities powered with devotion, practical and methodological skills, and persistent enthusiasm towards goal accomplishments. The LBS management is very keen

towards both co-curricular and extra-curricular initiatives/ activities, and in order to accomplish it, a great emphasis is laid on conducting professional seminars, workshops, and academic simulations throughout the semester. All offered programs at LBS are compatible to the guidelines and standards set by Higher Education Commission and Government College University, Faisalabad. After getting education, the graduates are motivated and determined to contribute their part in the progress of society in specific and the overall country in general.

Prof. Dr. Abdul Rauf Bhatti received his B.Sc. and M.Sc. degrees in electrical engineering from the University of Engineering and Technology (UET), Lahore, Pakistan, in 2004 and 2008, respectively, and obtained his Ph.D. degree (with distinction) in electrical engineering from Universiti Teknologi Malaysia (UTM), Johor Bahru, Malaysia, in 2017. He has been affiliated with Government College University Faisalabad (GCUF), Faisalabad, Pakistan, since 2006, where he currently holds the positions of Professor of Electrical Engineering and Dean of the Faculty of Engineering & Technology. Additionally, he has served GCUF as Director of the Office of Research, Innovation and Commercialization (ORIC), Chief Security Officer, and Project Director. He chaired the Department of Electrical Engineering & Technology for over five years, during which he established various engineering labs and initiated BS, MS, and Ph.D. programs in electrical engineering. Dr. Bhatti has received various national and international awards, including Best Teacher (GCUF), Outstanding Researcher (GCUF), Most Downloaded Paper of Wiley Online Library for 2018-2019, Best Paper at the 6th IEEE International Conference on Power and Energy in Malaysia, and recognition as one of the World's Top 2% Scientists of the year 2024. He has secured numerous grants for small, medium, and large projects from various funding agencies, including Ignite, PEC, HEC, and the British Council. As of April 2025, he has published 78 research articles (including those in local and foreign journals, book chapters, and conference proceedings) with a cumulative impact factor of 177.083, an h-index of 24, an i10-index of 35, and approximately 2,600 citations. With Prof. Dr. Abdul Rauf Bhatti as the Dean of the Faculty of Engineering & Technology, the faculty as well as students of this faculty are expected to be beneficiaries of the conducive and enabling environment.

The Faculty of Engineering & Technology is contributing to the Faisalabad community through Engineering and Technology programs accredited by Pakistan Engineering Council (PEC) and National Technology Council (NTC).

Vision

The vision of the Department is to become one of the best architecture departments in Pakistan and in the region to gain international recognition as a leader in architectural education that promotes regional architecture and an interdisciplinary culture of teaching and service.

Mission

The mission of Architecture programs is to provide the students with most creative, innovative and latest knowledge of Architecture. A balance of creativity and functionality shall be a main focal point to be instilled in the students. Moreover, the programs shall focus on the training the students in a way that they become good architects and better human in future.

Introduction

The Department is offering various programs which are combination of Architecture, Interior Design, History and Construction. The students will have a wide range of opportunities in multiple fields related to Architecture. These courses are specially designed and students will be able to achieve jobs in Architecture, Interior Design, Historical Architecture sites and Construction sites. These programs of study are highly demanding and only those students are recommended to apply who are willing to work long hours. Furthermore, significant components of studies involve fieldwork, where students are required to visit construction sites, conduct field surveys, and join out of station study tours.

Vision

To become a premier hub of Chemical Engineering Technology and being recognized for diverse and high-quality technical education.

Mission

To produce skillful chemical engineering technologists to employ technical knowledge and practical skills to solve industrial problems with professional ethics.

Introduction

Pakistan is a land of opportunities. Recently, as a result of CPEC project, Pakistan has gained a vital Geo-strategic location in the region. This impact will increase the demand of technical professionals in the field of Chemical Engineering Technology in the near future.

The department of Chemical Engineering Technology at GCUF started its journey in 2016 and is the first government sector unit in Faisalabad, which initiates the degree course in Bachelor of Engineering Technology (Chemical) under the umbrella of National Technology Council (NTC).

Programs Offered

Bachelor of Engineering Technology (Chemical)

In Charge: Dr. Muhammad Ammar

Program Educational Objectives (PEOs)

Few years after graduation, students are expected to:

PEO-01: Establish a basic understanding of core domains of chemical engineering technology to resolve problems of industry, environment, and society by applying technical knowledge and skills.

PEO-02: Take the initiative in developing innovative ideas for the technological and professional growth of the process industry.

PEO-03: Perform effectively as an individual or part of a team with leadership skills while adhering to professional ethics and social values for the sustainable growth of society.

Vision

Emerge as a Center of Excellence in Civil Engineering Technology, fostering a generation of globally competent and socially committed civil engineering technologists who will contribute to the nation building process

Mission

To provide high quality education for producing professional technologists with high ethical norms, leadership qualities, and entrepreneurial skills in modern domains of Civil Technology to meet ever-changing needs of society and industry.”

Introduction

The department of Civil Engineering Technology started offering BSc Civil Engineering Technology program in the year 2015. The objective of the B.E Tech Civil Technology program is to provide the students good understanding of civil engineering solutions in a global, societal and environmental context, in consistent with the principles of sustainable development. The program will make the students capable of identifying, formulating and solving civil engineering technology problems that meet specified performance, cost, time, safety and other quality needs. B.E Tech Civil Technology program emphasizes on industry standard and research based projects to enhance the students’ skills for becoming successful professionals in the field of Civil Technology. The OBE System has been adopted by the department as per guidelines of National Technology Council (NTC). The department is accredited with National Technology Council (NTC).

Program Educational Objectives (PEOs)

Program Educational Objectives (PEOs) define the objectives which are to be achieved by each graduate of Civil Engineering Technology program after gaining four years of professional experience. Department of Civil Engineering Technology is one of the departments under the Faculty of Engineering & Technology. While designing PEO’s, Department’s Mission have been considered and are listed as follow:

PEO-01: Graduates exhibit excellence in their profession through technical knowledge and skills.

PEO-02: Graduates demonstrate effective communication and teamwork skills and uphold the principles of societal obligations

PEO-03: Graduates capable of planning, executing and managing the construction projects through continuous professional development activities

Introduction

The Department of Electrical Engineering and Technology, since its formulation in 2004, has been imparting quality knowledge and skills of Electrical Engineering and Technology to its undergraduate students. Over the years, the department has gradually been evolving into its current state with advanced teaching methods, modern laboratory facilities, highly qualified faculty including PhDs, and an efficient administrative/organizational setup. These advancements have resulted in the successful launch of MS and PhD Electrical Engineering programs in fall 2019 and the Master of Engineering Technology (Electrical) program in fall 2024. The department has been structured to have an Engineering section and a Technology section at the undergraduate level, in addition to the postgraduate programs. The adoption of Outcome Based Education (OBE) has been a major step forward for engineering education in Pakistan. Since the accreditation of the Pakistan Engineering Council (PEC) with the Washington Accord, this system has transformed our education system from conventional input-based systems to an internationally accepted OBE system. This allows all stakeholders of the education system to contribute to the development of the engineering curricula. Based on the recommendation of PEC and in line with the university's mission and vision, the Department of Electrical Engineering and Technology, GCUF has adopted this system with effect from spring 2019. Another milestone achieved by the department is the re-accreditation of the BS Electrical Engineering program (intake batch 2018-2022) at OBE level-II. Similarly, the OBE system has been adopted by the Technology section as per guidelines of National Technology council (NTC) with effect from fall 2020. The Bachelor of

Engineering Technology (Electrical) program has been accredited by NTC up until session 2021-2025.

Engineering Section

Mission

Our mission is to prepare individuals capable of responding to the rapidly changing field of Electrical Engineering. It is imperative that our students develop the necessary intellectual abilities, social tolerance, technical, entrepreneurial and leadership skills alongside moral and ethical values to successfully grasp this change for a prosperous future. The department meets this challenge through implementation of a dynamic and versatile Outcome Based Engineering Education System

Program Educational Objectives (PEOs)

In line with OBE system guidelines, university's vision, mission and industrial needs, the Program Educational Objectives (PEOs) have been developed by the department of electrical engineering and technology for BS Electrical Engineering program.

PEO-1 : Apply Engineering Knowledge to resolve the technical problems of the society.

PEO-2 : Enhance the intellectual and analytical abilities in taking initiative to develop innovative ideas for technological and professional growth in the field of Electrical Engineering.

PEO-3 : Work effectively as a team member or lead multidisciplinary teams while demonstrating the interpersonal, entrepreneurial and management skills alongside ethical responsibilities.

To fully implement the OBE system in Department of Electrical Engineering and Technology and to incorporate stakeholders into the system, the department has established a Placement Bureau/ Industrial Liaison Office and an Industrial Advisory board. The Placement Bureau/ Industrial Liaison Office maintains close collaboration with the industry and facilitates internship/ job placement of the students/graduates and also organizes industrial visits to bridge the gap between theory and practice. The Industrial Advisory Board, comprising representatives from power and telecom sectors including Faisalabad Chamber of Commerce & Industry (FCCI), advises the department on strengthening industry academia linkages and curriculum revisions in line with industrial needs.

Graduate Attributes/ Program Learning Outcomes (PLOs)

As per Washington Accord, an Engineering Graduate is expected to have the following attributes.

Engineering Knowledge (PLO-1): Apply knowledge of mathematics, natural science, engineering fundamentals and an engineering specialization to the solution of complex engineering problems (WK-1-WK-4).

Problem Analysis (PLO-2): Identify, formulate, conduct research literature, and analyse complex Engineering problems reaching substantiated conclusions using first principles of mathematics, natural sciences and engineering sciences (WK-1-WK-4).

Design/Development of Solutions (PLO-3): An ability to design solutions for complex engineering problems and design systems, components or processes that meet specified needs with appropriate consideration for public health and safety, cultural, societal, and environmental considerations (WK-5).

Investigation (PLO-4): Conduct investigation of complex Engineering problems using research-based knowledge and research methods, including design of experiments, analysis and interpretation of data, and synthesis of information to provide valid conclusions (WK-8).

Tool Usage (PLO-5): Create, select and apply appropriate techniques, resources, and modern engineering and IT tools, including prediction and modeling, to complex Engineering problems, with an understanding of the limitations (WK-2 and WK-6).

The Engineer and the World (PLO-6): Analyze and evaluate sustainable development impacts to society, the economy, sustainability, health and safety, legal frameworks, and the environment while solving complex engineering problems (WK-1, WK-5, and WK-7).

Ethics (PLO-7): Apply ethical principles and commit to

professional ethics and norms of engineering practice, and adhere to relevant national and international laws. Demonstrate an understanding of the need for diversity and inclusion (WK-9). **Individual and Collaborative Team Work (PLO-8):** Function effectively as an individual, and as a member or leader in diverse and inclusive teams and in multi-disciplinary, face-to-face, remote and distributed settings (WK-9).

Communication (PLO-9): Communicate effectively and inclusively on complex engineering activities with the engineering community and with society at large, such as being able to comprehend and write effective reports and design documentation, and make effective presentations, taking into account cultural, language, and learning differences (WK-1 and WK-9).

Project Management and Finance (PLO-10): Demonstrate knowledge and understanding of engineering management principles and economic decision-making and apply these to one's own work, as a member and leader in a team, to manage projects in multidisciplinary environments (WK-2 and WK-5).

Lifelong Learning (PLO-11): Recognize the need for, and have the preparation and ability for i) independent and life-long learning ii) adaptability to new and emerging technologies and iii) critical thinking in the broadest context of technological change (WK-8 and WK-9).

Technology Section Mission

Our mission is to enable future technologists to face challenges of their field with intellectual and technical expertise keeping in view the ethical and moral aspects of their work. Moreover, to produce highly competent future leaders capable of bringing Pakistan into a new era of technological and entrepreneurial advancement through education based on industrial trainings, hands on experience and research.

Program Educational Objectives (PEOs)

In line with OBE system guidelines, university's vision, mission and industrial needs, the Program Educational Objectives (PEOs) have been developed by the department of electrical engineering and technology for B.E.Tech. (Electrical) program.

PEO-01: To produce graduates with a deep understanding of engineering technology, capable of effectively investigating and analyzing complex real-world industrial problems using a variety of analytical tools and modern technologies.

PEO-02: To cultivate graduates who can leverage modern and emerging technologies to design and implement innovative, cost-effective, and environmentally sustainable solutions for the benefit of society.

PEO-03: To foster graduates with strong moral values, exceptional entrepreneurial, management and communication skills who are proficient in working collaboratively in diverse and multi-disciplinary teams.

Vision

To produce technologists with sound knowledge of fundamentals of traditional, modern and emerging areas of technology and managerial skills, essential for sustainable national development.

Mission

The Mission of Department of Mechanical Engineering Technology is towards outstanding education and research leading to well qualified technologists who are entrepreneurial and successful in advanced fields of mechanical technology to cater the ever changing industrial demands and social needs.

Introduction

Mechanical Engineering has made the world advance. We live in by constantly improving and inventing technology. Mechanical Engineering Technology has made it possible to convert our lives towards easier mode by making everything we use, more efficient.

Becoming a Mechanical Engineering Technologist opens doors to nearly every area of industry, from manufacturing to construction; working on problem-solving projects from design stages through to commissioning and production. There is a broad range of employment opportunities within this diverse discipline involving design, manufacture, research, development, management and marketing.

We provide students with a rigorous education, hands-on experience, exposure to cutting-edge research, and support to pursue their dreams.

Program Educational Objectives (PEOs)

PEO 1: To develop the thorough understanding of technical knowledge from basic level to higher levels in order to cope the ultimate mechanical technology needs of the day.

PEO 2: To develop the professional skill to adopt the smarter solutions to the technical problems and analysis by using modern tools and software.

PEO 3: To prepare the professionals to manage the projects with strong communication skills which leads to a good impact on the socio-economic growth of the society and provide sustainable solutions towards environment.

Vision

Department of Arabic aims to prepare specialists in the field of Arabic Language, Literature and Translation Studies to address the contemporary linguistic, cultural, social, economic and religious requirements.

Mission

The Department of Arabic offers quality education to its students. It is committed to enhancing their knowledge, fostering their Islamic values and training them on scientific thinking skills and research methods. It imparts academic excellence and attracts students and researchers from around the world. The Department provides its students competencies in the field of teaching and learning Arabic Language for non-native speakers. The Department keeps its academic and research Programs in line with contemporary requirements. Arabic language is used as a medium for cultural, academic and educational interaction.

Introduction

The Department was established in 1976 by the distinguished scholar Prof. Dr. Muhammad Ishaq Qureshi. It is worth mentioning that this is one of the oldest Departments of the University. Teaching of MA Arabic was started in 1986 and MPhil Arabic was launched in 2002 and PhD Arabic in 2005. Besides indigenous students, several scholars have obtained their M. Phil and PhD degrees from the Department. In addition to the Department is committed to the promotion of research activities by conducting national and international conferences, seminars and workshops. The teaching staff focuses on modern functional

Arabic language. It is possible to strengthen Oriental and local languages to bring them closer to one another on the basis of Arabic grammar vocabulary and Literature.

Objectives

The major objective of the Department is to help the student achieve high levels of proficiency in modern Arabic Language. The Department offers numerous enlightening courses such as Modern Muslim World, Contemporary Linguistic Issues, Arabic Electronic and Print Media to build a strong foundation of language proficiency and cultural understanding of different fields including literature, linguistics, art, history and religion. We believe we can make the Arabic language interesting for our students, and enable them to communicate with the community around them in Arabic World. Reading, writing, speaking, and listening are core issues for appropriate communication. We aim to develop the students' potential to use their literary skills effectively.

Arabic is considered one of the oldest languages in the world with a wealth of knowledge. Today Arabic is the official Language of 26 countries and is spoken by 280 million people worldwide. Arabic is one of the six UN official Languages: China, French, English Arabic, Spanish, and Russian. The Department aims to produce scholars capable of serving internationally in various fields.

Programs Offered

1. BS Persian
2. BS Bridging Persian (2 Year program)
3. MPhil Persian
4. Certificate in Persian Language
5. Diploma in Persian Language

In Charge: Dr. Sami Ullah

Vision

To promote Persian language and literature that can act as a bridge between the regions with common geographical, cultural and lingual ties.

Mission

To define new directions of research to implement various forms of learning by providing best quality and goal oriented education that will help and encourage the students to build up their professional skills and guide them to find the best opportunities to work as researchers, translators, interpreters and teachers.

Introduction

Persian is spoken by 120 million people not just in Iran, but also in Afghanistan and Central Asia. Learning Persian language is not only a source of developing our relations with Iran, Afghanistan, Tajikistan and other Persian regional countries but also helps in complete understanding Urdu language, literature and Allama Iqbal's poetry. In addition, a great treasure of religious books is in Persian language and many other have been translated in Persian language. These books are an authority in religious and religious teachings too. The department of Persian is newly established in GCUF with a view to provide facilities for advanced studies and research in the fields of Persian language and literature with particular emphasis on the literature produced in the Indo-Pak subcontinent during the last nine centuries, and to familiarize the younger generation of this country with the history, language and literature of Iran. Students of this Department continue to enter a variety of vocational fields, some of which are CSS, Advertising, Media, Banking, Business, Translation /

Interpreting, Teaching, Educational Administration & Research, News agencies, Foreign Ministry, Central Asia Trading etc.

Programs Offered

1. BS Punjabi
2. BS Bridging Punjabi
3. M.Phil Punjabi

In Charge: Dr. Asma Ghulam Rasool

Vision

Our vision is to establish Punjabi Language, Literature and history as one of the oldest and richest literatures of the world proudly comparable with the literatures of other languages.

Mission

The mission of the department of Punjabi is to promote Punjabi language and literature and highlight its rich history and diversity. Punjabi, a language of the Sufis, reflects the culture and values of its people. The department aspires to restore the Punjabi language and literature to its rightful place in academia and society.

Introduction

Punjabi is the language of millions of people of Punjab and a means of communication through which they perform and execute the business of their daily life. For centuries Punjabi has been a medium of expression of the saints and other great poets of this region. Therefore the structure of the Punjabi classical poetry is erected on the foundations of mysticism and high moral values. The great mystics like Baba Fareed Gunj Shakkar, Shah Hussain, Sultan Bahoo, Syed Bulhey Shah, Ali Haider, Syed Hashmin Shah, Syed Waris Shah, Maulvi Ghulam Rasool, Mian Muhammad Bukhsh and Khwaja Ghulam Fareed presented their striking ideas in Punjabi poetic form for the worldly as well as the religious guidance of the people. Punjabi language does not only reflect the realities and attitudes of life but is also a great source of social, cultural and historical identity.

Department of Islamic Studies

Phone: 041-9201559

Email: islamic.st@gcuf.edu.pk

Vision

To deliver an advanced knowledge and understanding of classical and modern Islamic religious thoughts in order to promote Islamic values among the students and to develop the capacity of the scholars to respond the contemporary challenges according to Islamic teachings. It is also aimed to restore the full meaning of education by offering an opportunity to study, comprehensively and critically, the syllabus of a classical education in the Islamic sciences sensitively adapted for our time.

Mission

The mission of the Department of Islamic Studies is to present Islam as manifested in the Holy Quran and Sunnah while fostering a comprehensive understanding of Islamic history, primary texts, and the dynamics of global Muslim communities. The department is dedicated to addressing regional and global issues of the Islamic world and exploring the diverse histories of Islam across the Middle East, Africa, South Asia, and Europe. The department aims to equip students with the skills necessary for careers in legislation, research, management, teaching, and Islamic banking. Through academic activities, it seeks to promote Islamic values such as tolerance, brotherhood, unity, moderation, broad-mindedness, and compassion. By encouraging critical thinking, lifelong learning, and the pursuit of advanced knowledge, the department prepares graduates to achieve high-level professional objectives and assume leadership roles in diverse fields.

academic components of Government College University, Faisalabad. The subject of Islamic Studies was introduced in the 1955-56 academic year with the name "Deeniyat". Mr. M. Abdullah Kamil and Prof. Iftikhar Ahmad Chishti played an important role as pioneer teachers of the department. Later on, the Department of Islamic Studies was established in 1985, where leading academicians served the department. The alumni of this department have been serving in various institutions in the country and abroad. Presently, the department is offering four programs in Islamic Studies, including BS, MPhil, and PhD. A research journal titled "Zia-e-Tahqeeq" (HEC Recognized) has also been launched for quality research. Furthermore, the "Rahmatul-lil-Alameen Chair" for studying Seerah and the "Tasawwuf Study Center" have been established in the department for promoting moral values, harmony, and peace in society. The department has organized many national and international conferences and workshops on various topics, including Quranic Studies, Hadith and Seerah Studies, Interfaith Dialogue and harmony, Sufism, and Muslim culture and history.

Iqbal Chair

"Life moves with the weight of its own past on its back."

(Reconstruction of Religious Thought in Islam, p. 132)

Vision/ Mission

Iqbal Chair is established in the Faculty of Islamic and Oriental Learning in order to understand the spirit and philosophy of Iqbal's teachings and promote his views of the Muslim ummah across the Muslim world.

Introduction

Allama Muhammad Iqbal was one of the most outstanding thinkers and poet-philosophers of our nation. He was not a traditional poet, singing the songs of romance, away from ground realities. He was a visionary philosopher of his epoch. His sublime poetry and philosophy inspired millions of Muslims to wake up to the reality of the time and forge a destiny for themselves. He wanted religion to be made compatible with changing times and synchronize it with science. He is also called Muffakir-e-Pakistan (The inceptor of Pakistan) and Hakeem-ul-Ummat. His vision of an independent state for Muslims of the British India was the Starting point for the creation of Pakistan. He is one of the most important figures in Urdu literature, with literary works both in Urdu and Persian Languages.

Allama Muhammad Iqbal was keenly attached to the youth. He has a lot of prayers for the youth. He thinks that the youth are the future of the nation.

جوانوں کو مری آہ سحر دے
پھر ان شاہین بچوں کو بال و پر دے
خدایا! آرزو مری یہی ہے
مرا نور بصیرت عام کر دے

Thanks God Almighty that Iqbal chair has been established in Government College University Faisalabad. All credit goes to the respected Vice Chancellor Professor Dr. Shahid Kamal who took a historic step by getting Iqbal Chair functional in the University. No doubt, the respected Vice Chancellor created History by the Splendid addition of Iqbal Chair in the University.

The main objectives of the chair are as under:

1. To promote and disseminate the study and understanding of the works and teachings of Allama Muhammad Iqbal
2. To conduct research on Iqbal's thoughts.
3. To produce specialists of Iqbal studies.
4. To promote the message of Iqbal among the youth.
5. To conduct exhibitions, conferences, seminars, and debates on the teachings of Iqbal.

Rehmatul-lil-Alameen Seerat Chair

In Charge: Prof. Dr. Hamayun Abbas

Vision/ Mission

- Providing solution to the contemporary problems of the Muslim World in the light of Seerah of the Holy Prophet PBUH
- Uniting all the Muslims of the country on one platform according to the principles of Islamic Shari'ah

Introduction

The study of the Seerat strengthens the spirit of defending Islam and provides peace, tranquility, and contentment to the hearts of the Muslims. A thorough study of the Seerah of the Holy Prophet (PBUH) helps to understand the Holy Qur'an and the Hadith by developing deep connections with the principles of Islamic Shari'ah. A deep study of the Seerah of the Prophet (PBUH) not only provides direction about faith, shari'ah, ethics and da'wah training but also represents a perfect practical model for politics, justice, economics, moralities, and social reforms in a righteous way.

Seerat Chairs were established in general universities of Pakistan on the directions of the Federal Government during 1975-76. The Syndicate of GCUF in its 12th session held on 05-03-2014, granted permission for the establishment of Seerat Chair. Prof. Dr. Zakir Hussain directed to arrange an international Seerat Conference at GCUF and Seerat Chair was announced in this conference in the presence of Prof. Dr. Yaseen Mazhar Siddique on Oct, 2014.

Renaming the Seerat Chair

Seerat Chair was renamed as "Rahmatul-lil-Aalameen Seerat-Chair" in 23rd session of Academic Council on 01-06-2021. Prof. Dr. Shahid Kamal played a vital role to expedite the advanced researches on this platform.

5. A special Seerat Number of Al-Ehsan (A biannual Islamic research Journal of GCUF) was issued and it was awarded by Federal Ministry of Religious Affairs.

Prof. Dr. Humayun Abbas is an internationally renowned name in the field of Islamic Studies. He completed his Post-Doc from University of Glasgow, UK. He has been teaching, doing research and providing administrative services for more than 20 years, encompassing Quranic Sciences, Seerah Sciences, Tasawwuf and Islamic Jurisprudence. He has served as Dean, Chairperson and Professor at GCUF. He has organized many national/international research conferences and seminars. He has initiated many academic programs and two research journals Zia-e-Tahqiq and Al-Ehsan. He has authored many books and number of research articles in reputable national and international journals. His two books on the Seerah of the Holy Prophet PBUH was awarded "Seerat Award" by the President of Pakistan. He has supervised a number of research scholars at M.Phil and PhD levels, in the field of Seerah.

Prof. Dr. Rauf-i-Azam, currently Vice Chancellor of the Government College University Faisalabad, earned his Master's and MPhil degrees in Mathematics from the Quaid-i-Azam University Islamabad followed by a PhD, in Information Systems, from Nara Institute of Science and Technology, Nara, Japan. Since the completion of his PhD in 1998 he has been involved with teaching, research, consulting and other similar activities in the realm of knowledge economy. He is a distinguished educationist with vast experience in teaching, research, administration and institutional development. Previously, (from 2021 to 2024), he served as the founding Vice Chancellor of the Punjab University of Technology Rasul, Mandi Bahauddin. In this role he worked to develop a new university leading all the activities ranging from planning to execution of a large development project worth more than Rs.6.208 billion. He has also served as Pro-Rector at the University of Lahore, one of the largest universities in the private sector. Earlier, (from 2015 to 2019), he served as the Vice Chancellor of the University of Education Lahore, where he was instrumental in designing and implementing a comprehensive reform agenda improving the quality of education through improvements in faculty, curricula, operational efficiency, institutional environment, use of technology and many other institutional aspects. Prof. Dr. Rauf-i-Azam is of the view that as universities are the places where future of a nation is built, they should present a living model where competence is nurtured, responsible citizenship is practiced, diversity is respected, and learning is a continuous pursuit – in short, the universities should present a model of a society that we desire to build and live in.

Department of Biochemistry

Vision

To induce the basic and modern knowledge of Biochemistry and to impart modern teaching methods in the students, learning process, so that they can lead the nation in this discipline.

Mission

Nurturing a conducive environment of biochemistry in the nation as a whole to get a leading position by fulfilling the needs of skilled man powers of speeding emerging biotech industry.

Introduction

Biochemistry is the science concerned with the chemical basis of life. Biochemistry incorporates everything in size between a molecule and a cell and all the interactions between them. The aim of biochemists is to describe in molecular terms the structures, mechanisms and chemical processes shared by all organisms, providing organizing principles that underlie life in all its diverse forms. So a biochemist would study these molecules namely carbohydrates, lipids, proteins and nucleic acids. Biochemist also studies their reactions and what affects them and in what ways. Biochemistry is thus a study of the compounds found inside living beings, the processes involved with the focus on the role, function and structure of these molecules. Biochemistry now encompasses all of the molecular and cellular life sciences. Scientific topics falling under the broad description of biochemistry include genetics, immunology, virology, developmental biology, neurobiology, cell biology and structural biology. A recent milestone in biochemistry was the completion of the Human Genome Project and stem cell therapy. There has never been a better time to study biochemistry. With the introduction of newer methods in science and technology, the scope of biochemistry is much greater than in the past. In fact, biochemistry is fundamental discipline of life science that fulfills

the requirements of all students. The challenging nature of the subject and the leading job opportunities that can be got after the completion of studies in this field. There are quite a few fields where Biochemists can find employment which include

Private Sector

- Chemical Manufacturing Companies
- Food and Drink (includes brewing)
- Health and Beauty Care
- Medical Instrument Companies
- Pharmaceutical Firms
- Research Organizations

Public Sectors

- Agriculture and Fisheries
- Cancer Research Institutes
- Environmental Pollution Control
- Forensic Science
- Hospitals
- National Blood Services
- Overseas Development
- Public Health Entities
- Public Health Laboratories

- Public Health Laboratories

Objectives

- To produce the manpower, confident to apply biochemistry knowledge in different span of living beings.
- Applications of the above knowledge in the understanding of disease processes and drugs discovery with vaccination
- To provide fundamental knowledge in statistical concepts and regulatory approach in biochemistry
- To adopt multidisciplinary approach to equip the students for multidimensional career opportunities
- Experiments to demonstrate important bio-chemical, molecular and physiological concepts
- To encourage the student's capacity for self-learning by research work

Vision

Enabling youth to make contributions to the socio-economic progress of the country for the greater good of mankind.

Mission

To prepare future generations with strong foundation of social, ethical, professional standards to compete on social, economic, and technological fronts for a prosperous future.

Introduction

Department of Bioinformatics and Biotechnology was initially established as a Department of Bioinformatics in 2004-2005 having an undergraduate program in Bioinformatics only, later an MS program in Bioinformatics was also started. In 2010, the Department was renamed as Department of Bioinformatics and Biotechnology with the initiation of second MS program in Biotechnology, while a PhD program in 2011.

Bioinformatics and Biotechnology have become frontline applied science disciplines of the twenty-first century. The ability to decipher the genetic code of living organisms has opened limitless opportunities to improve the quality of human life and has dramatically changed the challenges that the biological and biomedical sciences can address. Government College University Faisalabad (GCUF) is among the few institutions in the country to offer degree programs in these emerging fields. Bioinformatics is an amalgamation of Life Sciences, Statistics, Mathematics and Computer Sciences. It is responsible for developing new computer programs (databases and software) for their applications in life sciences. Biotechnology is the technological application of biological systems (living organisms or derivatives thereof) to make or modify products or processes intended for "Human Welfare" or specific use.

Over the years, the Department of Bioinformatics and Biotechnology (BNB) has established a competitive research

facility to provide interdisciplinary learning and trainings by integrating the computational and biological tools while focusing on industrial enzymes, microbial biotechnology (fungi, bacteria, microalgae, cyanobacteria) for industrial and environmental applications, human genetic disorders, infectious diseases, molecular virology, stem cell and regenerative medicines, stress physiology of plants, molecular plant pathology, integrative OMICs and molecular modeling/simulation, system biology and biomedical data analyses, and much more.

The passionate faculty of BNB has established international collaborations with the eminent researchers across the globe including East Asia, Europe, America, and Middle East. The research projects at BNB have been funded by Higher Education Commission of Pakistan, International Foundation for Science of Sweden, COMSTECH-TWAS-OIC Italy, National ICT program, and local industry.

Goals / Objectives

- To provide quality education and cutting-edge research environment with impetus to generate professional workforce in society that can demonstrate professional competence, integrity and responsibility in diverse work environments of biological and computational sciences.
- To develop and promote new technologies for commercial applications and popularization of biotechnology, molecular biology and bioinformatics.
- To foster inter-disciplinary research-based industry-academia linkages to address the local challenges for sustainable socio-economic development and to create career opportunities for fresh graduates.
- To train manpower adept at developing innovative computational approaches and commercial bioinformatics tools with biological datasets by integrating machine learning, data mining, and statistical methodologies.
- To establish an interactive network of life scientists and bioinformaticians who would be effective contributors towards national and global growth.

Vision

Exploration of natural world of plants and allied creature for unraveling vast untapped resources of nature for the benefit of human race as well as the glorification of knowledge

Mission

We are committed to ordain human capital with excellence in the changing scientific scenario through innovative and interactive learning and research.

Introduction

Being one of the oldest academic disciplines of this institution, the department is privileged to have a strong faculty and academic program. At present, this department is offering degree courses for BS, MPhil and PhD programs. Department of Botany has gained credence from the comity of global academic and research institutions. Currently the department has signed MoUs with WWF, Pakistan, North West A & F University, China and Tohoku University, Japan, for research and academic collaboration.

Department aims to provide quality education in diverse areas of research. A well-knit research program with due liaison with relevant industries and partner national research organization exists at Department of Botany. We are striving to nurture our industry with trained and skilled manpower and with the development of "early bird" innovative production processes. Our research activities on medicinally important plant-derived constituents, nutritional fortification of edible grain crops, development of industrially important fungal enzymes and natural pigments, edibles free from biotic contaminants, etc. are being valued by national industrial enterprises. An all-out academia-industry linkage initiative has taken off from this forum and the relevant entrepreneurs are approaching us for collaborative research ventures of mutual interest.

A number of nationally and internationally funded research projects are also underway, and the academia is focusing on to

broaden need-based research endeavors. Molecular Biology, Plant Physiology, Integrative Biology, Environmental Biology, Economic Botany, Mycology, Microbiology and Biotechnology are some of the focal areas of research at this establishment. Currently research work is being carried out in the fields of plant molecular biology, fortification of cereal crops, medicinal plants and nutraceuticals, seed priming, enzymology, plant tissue culture, stress physiology, biochemistry, phytoremediation and heavy metal tolerance, improving crop acclimation to different agro-climatic zones and fungal taxonomy. Research on genetic basis of stress tolerance in different crops is also underway. The genomic resources are being utilized to enhance crop production by gene manipulation. Furthermore, research activities on seed metabolism, plant nutrition and plant growth regulators are in progress for different economically important crops and medicinal plants.

We are proud to be the host of 1st international symposium of this University in 2006. This department organized two (02) international conferences, five (05) international symposiums and national seminars. Besides active involvement in transferring knowledge to the students, the induction of high class academia is also upgrading the faculty profile of the department. Department of Botany at Government College University, Faisalabad is among the top choices of students for their learning needs throughout Pakistan and the numbers of enrolments are increasing every year. Until now 53 PhDs, 729 MPhil, 800 MSc and 5086 BS(Hons) students have completed their studies. At present, 205 students are enrolled in BS (Hons), 125 in MPhil and 96 in PhD programs.

Department of Environmental Sciences

Phone: 041-9201566

Vision

The Department of Environmental Sciences envisions quality education through collaborative multi-disciplinary modules and innovative research avenues to address current environmental issues and prospect future challenges for sustainable development.

Mission

Our mission is to emerge as a premier center peculiar to learning, and research that will provide solutions to multi-fold environmental challenges for the betterment of society. The degree programs are aimed to develop qualified human resources with strong theoretical and practical knowledge of basic and applied aspects of Environmental Science. Courses for various degree programs have been designed to deliver state-of-the-art information and practical expertise that would enable graduates to effectively address local and global environmental issues.

Introduction

Environmental science is an interdisciplinary academic field to study the complex interaction of human activities and the environment. The degree programs offered at the Department of Environmental Sciences bridge the gap between various basic and applied science disciplines to meet the challenges of 21st century through advanced research and training. It is, therefore, necessary to develop research facilities in order to cope with future demands by engaging in multidisciplinary research. Researchers of this department are exploring the

fields of bioremediation, wastewater treatment, environmental biogeochemistry, soil carbon sequestration, climate change, waste management, environmental impact assessment, environmental management systems, natural resources management, air pollution and other environment related issues. For conducting the research on different aspects, the Department of Environmental Sciences has established the following research laboratories:

- Env-Lab-1 Environmental Biogeochemistry Lab
- Env-Lab-2 Ecological Systems Lab
- Env-Lab-3 Environmental Microbiology and Biotechnology Lab
- Env-Lab-4 Rhizosphere Biogeochemistry Lab
- Env-Lab-5 Environmental Chemistry and Toxicology Lab
- Env-Lab-6 Land, Air and Water Research Lab
- Env-Lab-7 Environmental Nanotechnology and Biochar Lab
- Env-Lab-8 Atmospheric Chemistry and Climatology Lab
- Env-Lab-9 Undergraduate Lab

In addition to these laboratories, the Department of Environmental Sciences also established a weather station in the Old Campus of the university in collaboration with Alterra, Wageningen, Netherlands. The data from this weather station is used in various fields of life and natural sciences. For research purpose, the Department of Environmental Sciences collaborates with different national and international institutions.

Programs Offered

1. BS Environmental Science
2. MPhil Environmental Science
3. PhD Environmental Science

Chairman: Prof. Dr. Sabir Hussain

Faculty

Prof. Dr. Sabir Hussain

Professor / Chairman
PhD (France), Postdoc (UCD - Ireland)

Assistant Professor
PhD (UAF)
Specialization: Soil Biogeochemistry and Sustainable Soil Health, Innovative Materials and Remediation of Polluted Environment, Microbes-Plant-Soil Interactions

Dr. Humera Aziz

Assistant Professor
PhD (UAF)
Specialization: Remediation of Contaminated Soil and Water, Synthesis and Modifications of Novel Sorbent for Environmental Pollutants Based on Nanotechnology

Dr. Shamaila Noureen

Assistant Professor
PhD (UAF)
Specialization: Phytomonitoring and Phytoremediation of Environmental Pollutants. Waste Valorization

Dr. Saadia Hina

Assistant Professor
PhD (CAS, China)
Specialization: Climate Variability, Extreme Events, Ambient air pollution, Environmental Impact Assessment

Dr. Muhammad Kashif Irshad

Assistant Professor
PhD (CAU-China), Postdoc (South Korea)
Specialization: Soil-Environment Pollution (Remediation, Protection, Monitoring), Biogeochemistry of Heavy Metals, Rhizosphere Microbial Analysis, Plants and Soil Enzyme Activities, Soil Ecology

Dr. Zaheer Abbas Virk

Lecturer
PhD (GCUF-Pakistan)
Specialization: Soil Chemistry

Dr. Aaifa Chaudhary

Lecturer
PhD (Germany)
Specialization: Emerging Pollutants (PFAS), Environmental Remediation; Pollutant Adsorption and Fate Assessment

Dr. Muhammad Fahid

Teaching Assistant
Ph.D (GCUF)
Specialization: Biological Wastewater Treatment, Bioremediation/Phytoremediation

Scheme of Studies BS Environmental Science

Semester 1		
ENV-301	Introduction to Environmental Science	3(3-0)
ENV-303	Basic Environmental Biology	3(2-1)
CHM-305	Basic Chemistry	3(2-1)
ENG-321	Functional English	3(3-0)
ISL-321 / ETH-322	Islamic Studies / Ethics *	2(2-0)

PST-321	Pakistan Studies	2(2-0)
ICT-321	Application of Information & Communication Technologies	3(2-1)
UHQ-I	Understanding of Holy Quran-I	1(0-1)
Semester 2		
ENV-302	Introduction to Earth Sciences	3(2-1)
ENV-306	Environmental Anthropology	3(3-0)
GSC-321	The Science of Global Challenges	3(3-0)
ENG-322	Expository writing	3(3-0)
ICP-321	Ideology & Constitution of Pakistan	2(2-0)
BAM-422	Entrepreneurship	2(2-0)
Semester 3		
ENV-401	Environmental Chemistry	3(2-1)
ENV-403	Environmental Physics	3(2-1)
HIS-111	Art & Humanities (History and Civilizations)	2(2-0)
EDU-324	Introduction of Education	2(2-0)
QTR-421	Quantitative Reasoning-1	3(3-0)

Department of Food Science

Phone: 041-9203022
Email: fs@gcuf.edu.pk

Vision & Mission

To produce high caliber graduates in the field of Food Science & Technology who will be well equipped through the training they receive, to support the rapid changes in food industries and sustain the industrial and economic development of Pakistan. This vision is pursued in par with core values of the University which are integrity, excellence, teamwork, discipline and dedication to work. The department has pursued its teaching and research program in recognition of the fact that the food industry in Pakistan is still in its fledging state. Hence it is important that this program is offered to train the needed manpower and expertise that will help the industry and will produce the healthy community that will contribute to accelerate the economic development of country. The department selects courses that are aimed at offering the students a good understanding of the basic principles of Food Technology according to the growing and dynamic needs of food industry. According to the international education standards for degree program in Food Technology, the course content of any undergraduate syllabus should cover the following categories: Food Chemistry and Analysis, Food Safety and Microbiology, Food Processing and Engineering, Applied Food Science. This degree program is not only producing skill technologist but also enhance the awareness regarding the issue that ultimately will uplift the economic status of the country.

Introcuccion

The Department of Food Sciences at Government College University Faisalabad was established in 2013 and is one of the best food science departments in the country. The outstanding faculty, state-of-the-art building and laboratory facilities, and friendly and dedicated staff members make the Department a pleasant place to study and conduct research. Our undergraduate

Major offers students' hands-on science dealing with real-world applications; small, friendly atmosphere; world-class internship experiences in collaboration with international institutions like:

- Laboratoire d'Ingénierie des Biomolécules (LIBio), Université de Lorraine, France
- Department of Food Bioprocessing and Nutrition Sciences, North Carolina State University, USA
- Faisalabad Confectionary Association, Pakistan
- Engro Foods Limited, Karachi
- Halal Research Council, Pakistan
- The Halal Science Centre Chulalongkorn University, Thailand
- Pakistan Council for Scientific and Industrial Research
- The University of Gambia
- Kyungpook National University, South Korea
- Iowa State University, USA
- Amanah Halal Research Centre, Germany

Our graduate program offers graduate study leading to Masters of Science and Doctor of Philosophy degrees. Graduate students receive in-depth training in the core disciplines of Food and Nutrition, Food Chemistry, Food Microbiology, Food Engineering and Processing, Food Safety, Food Service Management.

Objectives

- To produce competent Food Scientists/Technologists with adequate scientific background to meet the needs of public and private sector, organization/industries
- To provide professional leadership, services and outreach activities in the major areas of Food Science
- To develop cost effective appropriate technologies, helpful to boost up value addition in agriculture sector
- To carry out problem oriented in the field of Nutrition and Food Technology
- To meet the training needs of public and private sector

Programs Offered

1. BS Food Science & Technology
2. BS Food Business Management
3. MS Food Science & Technology
4. MS Dairy Technology
5. MS Food Safety & Quality Management
6. MS Food Service & Hospitality Management
7. Ph.D Food Science & Technology

Chairman: Dr. Farhan Saeed

Faculty

Dr. Farhan Saeed

Associate Professor / Chairman

Ph.D (UAF-Pakistan) Postdoc. (Australia)

Specialization: Cereal Science: Wheat Quality and Characterization, Starch Chemistry, Functional Foods, Food Analysis

Prof. Dr. Muhammad Umair Arshad

Ph.D (UAF-Pakistan), Postdoc (Canada)

Specialization: Functional Foods and Nutraceuticals, Utilization of Bioactive Components of Agro-Industrial Waste, Food Fortification

Dr. Zarina Mushtaq

Associate Professor

Ph.D (UAF-Pakistan)

Specialization: Food Microbiology, Dietetic Food, Food Borne Illness and Its Prevention

Dr. Muhammad Kamran Khan

Associate Professor

Ph.D (France), Postdoc. (Australia)

Specialization: Food Chemistry and Analysis, Application of Ultrasound in Food Processing, Effect of Industrial Processes on Potential Bioactive Components

Dr. Muhammad Imran

Associate Professor

Ph.D (UAF-Pakistan), Postdoc. (USA)

Specialization: Food Ingredient Technology, Functional Foods Chemistry, Food Process Engineering

Dr. Ali Imran

Associate Professor

Ph.D (UAF-Pakistan), Postdoc. (Australia)

Specialization: Human Nutrition, Dietary Cure for Metabolic Syndrome, Functional Foods and Nutraceuticals

Dr. Muhammad Tahir Nadeem

Assistant Professor

Ph.D (UAF-Pakistan)

Specialization: Food Biotechnology, Nutrition, Cereal Sciences, Halal Food

Dr. Muhammad Sajid Arshad

Assistant Professor

Ph.D (UAF-Pakistan), Postdoc. (South Korea)

Specialization: Meat Science and Nutrition, Functional Foods, Food Irradiations, Halal Foods

Dr. Bushra Niaz

Assistant Professor

Ph.D (UAF-Pakistan)

Specialization: Food Microbiology and Biotechnology

Dr. Muhammad Afzaal

Assistant Professor

Ph.D (GCUF-Pakistan)

Specialization: Food Safety and Biotechnology, Functional Foods, Micro & Nano Encapsulation

Dr. Muhammad Haseeb Ahmad

Assistant Professor

Ph.D (Germany)

Specialization: Cereal Technology, Rapid & Non Destructive Technologies

Dr. Hafiza Saima Tahir

Assistant Professor

Ph.D (GCUF-Pakistan)

Specialization: Dairy Technology

Dr. Muhammad Bilal Husain

Assistant Professor

Ph.D (GCUF-Pakistan)

Specialization: Functional Foods and Nutraceuticals, Fruits and Vegetable Processing, Valorization.

Dr. Haroon Munir

Teaching Assistant

Ph.D (GCUF-Pakistan)

Specialization: Fruits and Vegetable Processing

Scheme of Studies BS Food Science & Technology

Semester 1		
FST-301	Essential of Food Science & Technology	3(2-1)
FST-303	Fundamental of Human Nutrition	3 (3-0)
FST-305	Basics of Food Production	3(3-0)

Vision

Institute of Microbiology is envisioned to be a hub of scientific knowledge and research in the field of Microbiology which would be greatly beneficial for the development and prosperity of the country through knowledge based economy.

Mission

To advance the understandings of units of life, disease mechanisms and translate this knowledge into diagnostics, therapies and cures.

To empower curiosity-driven research through collaboration, technology and inventiveness.

To play its part to combat the current global health challenges and help to devise & implement national health policies.

Introduction

In spite of their very small size, the impact of microbes on the planet is so extensive that life without them is almost impossible. Microbiology is an exceptionally diverse science which deals with the study of microorganisms in relation to disease, industry, medicine, environment and modern biotechnology. The study of microorganisms cannot be overemphasized as they are necessary for the production of bread, cheese, antibiotics, vitamins, organic acids, enzymes, biologics, sera and vaccines. Over and above, microbes also serve as the basis and the major tools in the fields of Molecular Biology, Modern Biotechnology and Genetic Engineering. They are indispensable components of our ecosystem. Unfortunately some microbes cause all the known diseases in humans, animals and plants causing heavy morbidity and mortality.

Institute is focusing on academic and research collaborations with different National and International teaching and research institutes as well as with local industries through internship programs and combined research projects. The key focus is to

conduct applied and problem solving research in different fields of Microbiology. In addition to academics and research, students of this institute are equally bright and talented in extra-curricular and co-curricular activities and have won a number of laurels for the institute.

Microbiology is a broad discipline which has both basic and applied aspects. Many microbiologists are interested primarily in the biology of the microorganisms themselves whereas others may be interested in particular functional processes. Some microbiologists may have an applied orientation and would be interested in practical problems in the fields of medical, pharmaceutical, food, dairy and public health Microbiology. With WTO agreement in offering, every agro-based industry and the industry involved in production and export of biopharmaceuticals, biologics, vaccines, sera and diagnostics will be required to hire a Microbiologist / Immunologist at its strength to satisfy ISO certification needs. Therefore the graduates and post graduate students from Institute of Microbiology Government College University Faisalabad will have a very bright and attractive career ahead in public as well as in private sector.

Faculty members of Institute of Microbiology have won Several research projects under NRPU, PSF, HSP-USA and from other international & national funding agencies and published a number of research papers in Impact Factor Journals.

Department of Physical Education & Sports Sciences

Phone: 041-9203054
Email: physical.education@gcuf.edu.pk

Vision

We aim to be a leader of the disciplines of Physical Education and Sports Sciences by developing tools and excelling in Sports techniques, Scholarship and exploiting opportunities for academic research.

Mission

The Mission of the Department is to provide a committed and professional skills, techniques and knowledge of different Sports, which may be recognized as exemplary by its users by behaving in an approachable and courteous manner using available technologies appropriately to achieve objectives effectively at National and International level in the field of Physical Education and Sports Sciences.

Introduction

The study of Physical Education and Sports Sciences has been vital Importance in this age of science and technology. A nation cannot safe guard it's domestic and foreign interest and get its due status at National and International level without using the latest techniques of Physical Education and Sports Sciences in their professional and daily routine Life.

The Department will play a vital role in promoting different games at National and International level and is striving to sensitize and humanize its students in enabling them to become the leader in the field of Physical Education and Sports Science.

Vision

To establish the Department of Physiology as a center of excellence in education and research by cultivating a dynamic academic environment that nurtures innovation, creativity, and leadership. The department aspires to produce graduates who meet international standards and significantly contribute to the advancement of Life & Health Sciences.

Mission

To impart high-tech theoretical and practical knowledge in the field of Physiology through quality education and research. The department is committed to promoting scientific exploration and interdisciplinary collaboration that addresses national and global health challenges. Through student engagement, research-driven curricula, and state-of-the-art facilities, the mission is to shape the next generation of physiologists capable of leading in academia, industry, and healthcare sectors.

Introduction

The Department of Physiology, Government College University, Faisalabad, is the leading academic unit in Pakistan exclusively dedicated to the discipline of Physiology. It offers a full spectrum of academic programs in Physiology at the undergraduate and postgraduate levels, including BS, MPhil, and PhD degrees, and has established itself as a center of excellence in physiological education and research.

With four specialized research laboratories—Neurochemicalbiology & Genetics Lab (NGL), Health Biology Research Lab, Cell Biology Lab, and Nutritional Genomics Research Lab (NGRL)—the department facilitates advanced investigations into diverse physiological processes and health-related issues. A hallmark of the department is its state-of-the-art Animal Research Station, which plays a vital role in experimental physiology and translational research.

The department has secured multiple competitive research grants from national and international agencies, reflecting its strong research foundation. Numerous seminars, symposia, and collaborative projects highlight its commitment to scholarly engagement and scientific advancement.

Signature academic and professional development events such as the International Brain and Biomedicines Conference (IBBC), Pakistan Young Physiologists Symposium, Lab Animal Handling Workshop, and Physiology Friday provide dynamic platforms for knowledge sharing, capacity building, and scientific networking. Physiology graduates from GCUF find promising career opportunities in academia, healthcare, pharmaceutical industries, diagnostics, food sciences, and public health organizations. The department remains dedicated to continuous improvement, curricular innovation, and fostering a vibrant research culture aligned with global scientific progress.

Department of Zoology

Phone: 041-9201206
Email: zoology@gcuf.edu.pk

Vision

To align multidisciplinary approaches towards wide areas of biological sciences, the department strives to be a centre of excellence in teaching as well as in diverse areas of research to promote knowledge, skills and expertise in students required to serve the society as educators, University/College teachers, research scientists and administrators.

Mission

To meet the dire need of coming decades, the Department of Zoology is committed to impart most recent and updated education to students, to deliver society-oriented and need-based research, to promote academia-industry linkage, to hold regular seminars by invited speakers and subject specialists for the scientific grooming of students and faculty and to develop a collaboration both at national and international levels.

Introduction

Department of Zoology was established in 1989 for the teaching of graduate and post graduate courses affiliated with University of the Punjab, Lahore, then took a mature turn after the upgradation of Govt. College Faisalabad as Govt. College University Faisalabad in 2002. Later on launching of MPhil, PhD and Honors programs added to its status and it has come forth as one of the academically sound Department of the country. The high profile motivated faculty loaded with initiative and drive is key

strength of the Department. The fully equipped laboratories, well-furnished class rooms and updated spacious library provide the best possible facilities to the students in their academic pursuits. All the faculty members under the dynamic leadership of Prof. Dr. Salma Sultana are striving hard and exercising their potentials to the maximum extent focusing the activity based learning. University industry linkage program for the joint research ventures have been established. For this purpose the Department has established a linkage through signing MoUs with Newcastle University UK, WASA, Punjab Fisheries Department and University of Malaysia an objective of sharing research facilities for educational and career development of the students coherent with professional requirements. The Department believes in its uplifting at world recognized level through imparting outstanding teaching and research by awarding degree in academic programs of BS, MSc, MPhil and PhD in Zoology. The department has recruited foreign qualified PhD faculty members to broaden the teaching and research horizon to face the modern challenges in the field of Life Sciences. Highly equipped labs of different fields such as Entomology, Paleontology, Tissue Culture, Fish nutrition, Biochemistry, Wildlife, Genetics, Molecular biology and Research lab have been established to extend its infrastructure. Department has successfully completed the research projects under JHELP-II and INSPIRE Program (British council-Higher Education Commission funded projects) and its two extension programs SPEKE and TNE. Moreover various other projects funded by Pakistan Science Foundation (PSF), Higher Education Commission NRP, TWAS-

Programs Offered

1. BS Zoology
2. Bs Bridging Zoology
3. MPhil Zoology
4. PhD Zoology

Chairperson: Prof. Dr. Salma Sultana

COMSTech, The Nagai Foundation Tokyo, Japan, ICPSR-Kingdom of Morocco and Punjab Higher Education Commission PIRCA are being conducting in the department. Department of Zoology is pioneer in eLearning during the pandemic of COVID-19 to facilitate the students.

Faculty

Prof. Dr. Salma Sultana

Professor/ Chairperson
PhD (QAU), Post-Doc (UK)

Specialization: Fisheries, Human Molecular Genetics, Fish Nutrition, Proteomic, Genetic Epidemiological Studies, Aquatic Toxicology

Prof. Dr. Farhat Jabeen

Professor
PhD (QAU), Post-Doc (UK)

Specialization: Fisheries, Human Molecular Genetics, Environmental Science, Aquatic Toxicology

Dr. Abdul Shakoor Chaudhry

Adjunct Professor (Newcastle University, UK)
PhD (Animal Science), Cambridge University UK,
Post-Doc (UK & Australia)

Specialization: Animal Nutrition, Toxicology, Freshwater Biology

Prof. Dr. Asma Ashraf

Professor (TTS)
PhD (GCUF-Pakistan)

Specialization: Microbiology, Immunology, Bio Chemistry

Dr. Shabana Naz

Associate Professor
PhD (UAF-Pakistan)

Specialization: Vertebrate Pest Management, Wildlife Biodiversity, Reproductive Ecology, Animal Nutrition

Dr. Syed Makhdoom Hussain

Associate Professor (TTS)
PhD (UAF-Pakistan)

Specialization: Fish Nutrition, Aquatic Toxicology

Dr. Shabab Nasir

Associate Professor (TTS)
PhD (GCUF-Pakistan)

Specialization: Entomology

Dr. Bilal Hussain

PhD (GCUF-Pakistan)

Specialization: Fisheries, Aquatic Toxicology

Dr. Azhar Rafique

Associate Professor (TTS)
PhD (UAF-Pakistan)

Specialization: Biodiversity, Wildlife, Ecology, Parasitology

Dr. Muhamamd Asrar Chaudhary

Associate Professor
PhD (GCUF-Pakistan)

Specialization: Insect Pest Management

Dr. Laiq Ahmad

Assistant Professor
PhD (QAU-Pakistan), Post Doc (USA)

Specialization: Reproductive Physiology, Endocrinology

Dr. Farkhanda Asad

Assistant Professor
PhD (UAF)

Specialization: Limnology, Fish Nutrition, Fish Culture, Fish Masculinization

Dr. Javeria Altaf

Assistant Professor
PhD (GCUF-Pakistan)

Specialization: Taxonomy, Environmental Toxicology, Natural Products Discovery

Dr. Amna Sajjad

Assistant Professor
PhD, Post-doc (Germany)

Specialization: Human Biology (Cardiology)

Dr. Maleeha Manzoor

Assistant Professor
PhD (PU)

Specialization: Microbial (Biotechnology, Biofuels), Developmental Biology

Dr. M. Kashif Zahoor

Assistant Professor (TTS)
PhD (France)

Specialization: Entomology, Genetics, Molecular Biology

Dr. Ghazala

Assistant Professor (OPS)
PhD (GCUF-Pakistan)

Specialization: Environmental toxicology, Fisheries

Dr. Zaib-Un-Nisa

Assistant Professor (OPS)

Professor Dr Abid Rashid has unique academic record. He did graduation MBBS from PMC and FCPS from College of Physician & Surgeon . He did Phd in clinical medicine & Surgery from UAF. He served as professor of Surgery in medical college (UHS) for 12 years and trained undergraduate & postgraduate students. He led in directorate of medical sciences which is current faculty of medical sciences from 10 years. He trained students of BS, M.PHIL & PHD. He wrote books regarding surgical problems & editor journal of Medical & biological sciences which is HEC recodnized Y Category journal. He is now leading project of university medical college. He has vast experience of managing university medical services.

He has also carried out multiple international research projects related to clinical trials with ex-Director oxford University Professor Dr Allens funded by Fine treatment Oxfod United Kingdom addressing the most prevalent health issues of Pakistani Community.

College of Allied Health Professionals

Vision

To be a leading center of excellence in Allied Health Education, research, and innovation, empowering future healthcare professionals to transform lives and elevate the standard of medical care in Pakistan.

Mission

Our mission is to nurture a community of dedicated and skilled Allied Health Professionals through comprehensive and cutting-edge education, fostering a culture of research and critical thinking. We are committed to equipping our students with the knowledge, technical expertise, and ethical values to excel in the field of Medical Sciences, serving humanity with compassion and integrity. As an institution, we strive to continually adapt and evolve to meet the dynamic healthcare challenges, making a significant contribution to the healthcare sector and the well-being of society.

Introduction

Established in 2012, the College of Allied Health Professionals at Government College, University Faisalabad-Pakistan, is a distinguished institution dedicated to excellence in healthcare education. Through our innovative undergraduate programs, including Bachelor of Science in Medical Lab Technology (BS MLT), Bachelor of Science in Medical Imaging Technology (BS MIT), and Bachelor of Science in Surgical Technology (BS ST), we empower our students to become skilled and compassionate healthcare professionals. For students' professional training, the college has signed MoUs with prominent hospitals, including National Hospital, Faisalabad, Suraya Majeed Hospital, Faisalabad, Faisal Hospital, Faisalabad, and Allied Hospital, Faisalabad, providing valuable opportunities for hands-on

training and professional exposure. Our faculty of accomplished experts ensure a transformative learning experience, preparing graduates for successful careers in the dynamic field of medical sciences.

Vision

To be a leading College in transformative and innovative education for Rehabilitation (health) professionals, guided by National imperatives and a strong commitment to socially responsive education. We will strive for excellence in professional and teaching excellence, as well as in the development of National and global linkages in education, research and development of global health related to the concern areas.

Mission

To developed quality health professionals that are practice-oriented, receptive and responsive to the rehabilitation related health care needs of the people of Pakistan and of world as a whole. This will be achieved by providing the highest standards of learning, teaching, and research and community engagement, underpinned by a commitment to creating space for students and staff to succeed.

Introduction

Physical Therapy is an essential segment of modern health care system. It is a "science of healing and art of caring". It pertains to the clinical examination, evaluation, assessment, diagnosis and treatment of musculoskeletal, Neurological, Cardio-Cascular and Respiratory systems' functional disorders including symptoms of pain, edema and physiological, structural and psychosomatic ailments. It deals with methods of treatment based on movement, manual therapy, Physical agents, and therapeutics modalities to relieve the pain and other complications. Hence, Physical Therapy covers basic parameters of healing sciences i.e. Preventive, promotive, diagnostic, rehabilitative and curative.

Orthotics & Prosthetics

Phone: 041-9201205-111

Email: armghananjum@gcuf.edu.pk

Vision

To provide every person who needs a prosthesis (an artificial limb) or an orthosis (an orthopedic brace) access to that device, and, furthermore, they have the rehabilitation services needed to facilitate optimal recovery and functional independence.

Mission

To provide rehabilitation care for people who need prosthetic and orthotic (P&O) services by developing, operating, or supporting P&O clinics; by networking with other NGO's; and by partnering individuals in need with service providers all over the world.

Introduction

Rehabilitation of persons with loco-motor disabilities or neuromuscular disorder is a team work, where Centre of attention is the person with disabilities. The team usually comprises of the Physical medicine and Rehabilitation Specialist (Physiatrist) who is usually the leader, Prosthetist and Orthotist, Physiotherapist, Occupational therapist, Social worker and Rehabilitation Nurse. Depending upon the need, other professionals like Orthopedic Surgeons, engineer, psychologist, geriatrist and other related professionals are also included in the team. The role of Prosthetist and Orthotist is important. Prosthetists and orthotists deal with the assessment, diagnosis and management of the whole of the body. Prosthetists provide artificial limbs (protheses) to people who have all or part of a natural limb missing. Orthotists provide supportive braces and splints (orthoses) to people with various conditions of the limbs or spine.

Department of Eastern Medicine

Phone: 041-9200876
Email: eastern.medicine@gcuf.edu.pk

Vision

To attain the highest level of glory and excellence in the field of Eastern Medicine through quality teaching and research to make this Department as model department for producing highly competent and skillful Clinicians to serve for the benefit of humanity and to contribute to the development of Nation

Mission

To provide the knowledge and infrastructure to develop Eastern Medicine. Department of Eastern Medicine aims to build capacity of the common people (society) and the professionals to understand Eastern Medicine. This mission of the Department of Eastern Medicine goes well together to execute advance studies and research.

Introduction

The Department of Eastern Medicine was established in 2013 at Directorate of Medical Sciences, with a mandate to carry teaching and research on various aspects of modern as well as alternative medicine, suggesting measures for the conservation and improvement of population health by treatment and cure for the ailments and complications, especially focusing on utilization of local flora for alternative treatment. The department is offering graduate degree of BEM in Eastern Medicine. The degree is approved from Higher Education Commission. The faculty members of this department have published more than 80 research papers (as senior author or co-author) during the last five years. An extensive scheme of studies (containing more than 400 graduate level courses in ten semesters) has been developed and approved for graduate degree program in the field of Eastern Medicine, to cope up with whole medical fraternity, all major aspects of modern and alternative medicine are included, such as Anatomy, Physiology, Biochemistry, Clinical methods and therapeutics, Pathology, Community medicine, Pharmacology, Pharmacognosy, Principles of Eastern medicine,

Gynaecology and Obstetrics, Clinical Psychology and Psychiatry, Ophthalmology and ENT, Pediatrics etc. A number of latest books on the subject of Eastern Medicine have been purchased and placed in the departmental library for ready reference to the students. In addition, students are encouraged to get electronic copies of latest research papers related their area of research by contacting relevant authors, institutions and publishers etc.

Vision

The Department of Nutritional Sciences will serve international, national, regional and local communities through discovery of the ways to make balance diet in effective cost for the community ensuring the good health of nation and preventing burden of disease through effective application of nutrition knowledge.

Mission

Department of Nutrition Sciences, Government College University Faisalabad is committed to excellence. Mission of Department is "Knowledge Based Study & Value Added Research". We are committed to provide good Nutritionists/Dietician as well as good human beings to society so that they may have theoretical and practical contribution for the betterment of humanity. The department assures to produce highly skilled Nutritionists capable of making significant contribution in the different community sectors and related fields both in academia and industry at national and international levels.

Introduction

The Department of Nutritional Sciences at Government College University Faisalabad was established in 2020. The magnificent faculty, state-of-the-art building, laboratory facilities, and friendly dedicated staff members make the Department a pleasant place to study and conduct research. Recently the Department of Nutritional Sciences has signed three MOUs, one with World Poultry Science Association (WPSA) and second with Association for Bio risk Management Pakistan (ABM), and

Tianshi International Pakistan (TIENS) to facilitate the research activities and job placement of passed out students.

Objectives

- To produce competent Nutritionists/Dieticians with adequate scientific background to meet the needs of public and private sector
- To provide professional leadership, services and outreach activities in the major areas of Nutritional Sciences
- To resolve issues oriented in the field of Nutrition
- To meet the training needs of public and private sector
- To produce competent nutritionists and Dietitians for different organizations

Vision

To be a leading College in transformative and innovative education in the field of Public Health, guided by National imperatives and a strong commitment to socially responsive education. We will strive for excellence in professional and teaching excellence, as well as in the development of National and global linkages in disease prevention, health education, medical research and development of global health related to the concern areas.

Mission

To bring a qualitative and quantitative revolution in medical education by providing an environment geared towards promoting research and academic culture in order to improve the existing healthcare system.

Introction

Public Health Science is a multidisciplinary field that has changed over the years. However, an effective public health system is as urgent as it has ever been. A public health Professional receives education and training in a wide range of disciplines but aim at improving health through a population focus. Public Health education and training not only includes the five long-recognized core components of public health (i.e., epidemiology, biostatistics, environmental health, health services administration and social and behavioral sciences) but new areas are also considered these days as essentials of public health: disease-control, reproductive and child health, informatics, genomics, communication, cultural and social

diversity, community-based participatory research, policy and law, global health and ethics. Public health professionals' education and preparedness should be of concern to everyone for this will improve the health of the populations.

Prof. Dr. Rauf-i-Azam, currently Vice Chancellor of the Government College University Faisalabad, earned his Master's and MPhil degrees in Mathematics from the Quaid-i-Azam University Islamabad followed by a PhD, in Information Systems, from Nara Institute of Science and Technology, Nara, Japan. Since the completion of his PhD in 1998 he has been involved with teaching, research, consulting and other similar activities in the realm of knowledge economy. He is a distinguished educationist with vast experience in teaching, research, administration and institutional development. Previously, (from 2021 to 2024), he served as the founding Vice Chancellor of the Punjab University of Technology Rasul, Mandi Bahauddin. In this role he worked to develop a new university leading all the activities ranging from planning to execution of a large development project worth more than Rs.6.208 billion. He has also served as Pro-Rector at the University of Lahore, one of the largest universities in the private sector. Earlier, (from 2015 to 2019), he served as the Vice Chancellor of the University of Education Lahore, where he was instrumental in designing and implementing a comprehensive reform agenda improving the quality of education through improvements in faculty, curricula, operational efficiency, institutional environment, use of technology and many other institutional aspects. Prof. Dr. Rauf-i-Azam is of the view that as universities are the places where future of a nation is built, they should present a living model where competence is nurtured, responsible citizenship is practiced, diversity is respected, and learning is a continuous pursuit – in short, the universities should present a model of a society that we desire to build and live in.

Programs Offered

1. Doctor of Pharmacy (Pharm.D)
2. MPhil and PhD Pharmacology
3. MPhil and PhD Pharmaceutics
4. MPhil and PhD Pharmaceutical Chemistry
5. MPhil Pharmacy Practice
6. MPhil Pharmacognosy

Vision

Faculty of Pharmaceutical Sciences is a national model for excellence in pharmacy education, research and services by providing contemporary curriculum, evidence based practice and state of the art research facilities to the students.

Mission

To develop future pharmacist who could better lead as educationist, regulatory affairs manager, researcher, industrial pharmacist, community, hospital and clinical practitioner in Pakistan and beyond.

Introduction

Pharmacy is a lifesaving healthcare profession. In recent times, paradigm shift in the national and international healthcare systems have fuelled desire to upgrade the medical services in a modern healthcare system. This concept has also revolutionized the service providing approach of the pharmacy profession which has now developed into a multi-disciplinary profession. Currently, due to various health related issues there is need to develop new potent synthetic and biotech drugs as well as new drug delivery systems. This has substantially shifted the responsibility of pharmacists towards appropriate use of modern medicines so as to ensure optimum drug therapy and protecting the public from associated adverse drug reactions. It is therefore necessary to prepare and groom pharmacists for future professional responsibilities and challenges. The Department of Pharmacy was established in the GC University Faisalabad in the year 2005. It was upgraded to College of Pharmacy in 2010

and Faculty of Pharmaceutical Sciences in 2014. The Faculty of Pharmaceutical Sciences is offering Pharm.D (5 years), MPhil and / or PhD in Pharmacology, Pharmaceutics, Pharmaceutical Chemistry and Pharmacy Practice degree programs.

Objectives

- Provide quality education to students, who shall meet pharmaceutical and clinical needs of society and the globe.
- Cultivate a conducive environment where faculty and students can carry out studies and research activities.
- Develop competent pharmacists who would actively participate in healthcare related activities in Pakistan and world-wide.
- Understand how quality medicines are synthesized, developed, manufactured and delivered to patients in accordance with pharmaceutical knowledge, legislation and codes of professional conduct and practice.
- In Future we are planing to statrt Mphil / PhD in Pharma cognosy and pharmacy practice.

Department of Pharmacology

Phone: 041-9201036
Email: liaqat.hussain@gcuf.edu.pk

Programs Offered

1. MPhil (Pharmacology)
2. PhD (Pharmacology)

In Charge: Dr. Liaqat Hussain

Vision

Sustainable state-of-the-art teaching and research facilities in pharmacology to address complex human diseases and to develop research oriented ethical clinical pharmacologists.

Mission

To develop and train future pharmacologists in the field of gastrointestinal, cardiovascular, respiratory, endocrine, neuro, inflammo and ethnopharmacology by providing evidence-based curriculum, lab facilities and enabling learning environment.

Introduction

Pharmacology is an essential element of Pharmaceutical sciences (Pharmacy), Medicine, Dentistry and allied health care disciplines. Department of Pharmacology was established as an independent entity in 2014 under the umbrella of Faculty of Pharmaceutical Sciences. This discipline also covers Physiology, Pathology, Anatomy and Histology to understand physiological, anatomical description of the body and the pathophysiological basis of diseases for rationale drug classifications, therapeutic uses, pharmacodynamics, pharmacokinetics, adverse effects and important drug-drug interactions. Department of Pharmacology is aimed to promote conducive learning environment, team work culture, ethical behavior and interdisciplinary research approach to address complex health related issues.

Department of Pharmaceutics

Phone: 041-9201036
Email: ikramullahkhan@gcuf.edu.pk

Vision

Department of Pharmaceutics will nurture future formulation scientists to integrate the multiple approaches of pharmaceutics in developing novel dosage forms and providing solution to the pharmaceutical industry to achieve the goals of sustainable development.

Mission

To develop the character and skills in our professional and graduate students, necessary for the roles of the pharmaceutical industry, research & development, and betterment of health sector.

Introduction

Pharmaceutics is major discipline of pharmacy profession which deals with dosage form development and relationships between drug formulation, delivery, disposition and their clinical responses. Department of Pharmaceutics was established in 2014 and since then committed to provide quality education and research at under and postgraduate level. Most of the faculty members of the department are PhD or pursuing their doctoral studies. We are actively involved in research and offering master and doctoral programs. Our faculty members have number of research projects and facilities to carry out quality research.

Programs Offered

1. MPhil (Pharmaceutical Chemistry)
2. PhD (Pharmaceutical Chemistry)

Chairperson: Dr. Noor Ul Amin Mohsin

Vision

Department of Pharmaceutical Chemistry endeavors to be a recognized model for graduating students through innovative ideas and recent trends in the field of pharmaceutical chemistry along with drug design, and their development, to compete in and contribute to achieve sustainable development goals.

Mission

To produce world class pharmaceutical chemists with competencies to meet the national pharmaceutical challenges with technical and scientific skills for appropriate drug discovery and development.

Introduction

Pharmaceutical chemistry is one of the major disciplines of pharmaceutical sciences which deals with all chemical aspects of drugs and natural products, such as their structure, synthesis, isolation, and their structural activity in relationship with pharmacological activity. Department of Pharmaceutical Chemistry was established in 2014 and since then committed to provide quality education and research to its graduates which is based on the latest and most advanced trends in different fields of pharmaceutical chemistry.

Program Offered

MPhil (Pharmacy Practice)

In Charge: Dr. Shahid Shah

Vision

The Department of Pharmacy Practice at GCUF seeks to be a leader in pharmacy education, innovative basic and applied research, novel medication management models, and delivery of exemplary patient care.

Mission

Enabling students to be a part of healthcare team as medicine experts by developing necessary skills for patient care, clinical research and pharmacy leaders.

Introduction

Established in 2014, Pharmacy Practice is the major discipline of Pharm-D program which involves developing the professional roles of pharmacists in the healthcare system (hospitals, community pharmacies and health regulatory authorities). Clinical Pharmacy is a key area of the Pharmacy Practice in which pharmacist provides patient care through medication optimization and promotes health, and disease prevention. In future PhD in Pharmacy Practice will be offered.

Department of Pharmacognosy

Phone: 041-9201036
Email: drijazali@gcuf.edu.pk

Program Offered

MPhil (Pharmacognosy)

Incharge: Dr. Ijaz Ali

Vision

To be renowned and prestigious department at national and international level by offering high quality education and research in the preparation, standardization, commercialization, effectiveness and safe use of herbal medicines and natural products.

Mission

Department of Pharmacognosy is determined to provide quality education and research. It is also aimed to promote safe and efficacious use of herbal medicines and nutraceuticals through innovative research and phytopharmaceutical development based on local resources.

Introduction

Pharmacognosy is one of the major disciplines of pharmacy that deals with the drugs obtained from natural sources such as plants, animals, minerals and other natural sources. Pakistan is rich in natural fauna and flora and there is dire need to explore their medicinal potential to cure different diseases with minimum side effects. Department of Pharmacognosy was established in 2014 and since we are committed to provide quality education and research. In future we are planning to start MPhil and PhD in Pharmacognosy.

Faculty

Dr. Ijaz Ali

Assistant Professor / In Charge

PhD (UOK-Pakistan), RPh

Specialization: Extraction & Standardization of Crude drugs, vegetable oil analysis by GCMS, Bio active evaluation of metabolites for antioxidant, antidiabetic, antimicrobial and anticancer effects.

Dr. Ejaz Basheer

Assistant Professor

PhD (UOK-Pakistan), RPh

Specialization: Extraction & Characterization of Phytochemicals & Bio active compounds of natural origin. Poly herbal/ herbal formulations, standardization of natural products, Bioequivalence of herbal formulation. Regulatory Affairs of Natural Products.

Prof. Dr. Rauf-i-Azam, currently Vice Chancellor of the Government College University Faisalabad, earned his Master's and MPhil degrees in Mathematics from the Quaid-i-Azam University Islamabad followed by a PhD, in Information Systems, from Nara Institute of Science and Technology, Nara, Japan. Since the completion of his PhD in 1998 he has been involved with teaching, research, consulting and other similar activities in the realm of knowledge economy. He is a distinguished educationist with vast experience in teaching, research, administration and institutional development. Previously, (from 2021 to 2024), he served as the founding Vice Chancellor of the Punjab University of Technology Rasul, Mandi Bahauddin. In this role he worked to develop a new university leading all the activities ranging from planning to execution of a large development project worth more than Rs.6.208 billion. He has also served as Pro-Rector at the University of Lahore, one of the largest universities in the private sector. Earlier, (from 2015 to 2019), he served as the Vice Chancellor of the University of Education Lahore, where he was instrumental in designing and implementing a comprehensive reform agenda improving the quality of education through improvements in faculty, curricula, operational efficiency, institutional environment, use of technology and many other institutional aspects. Prof. Dr. Rauf-i-Azam is of the view that as universities are the places where future of a nation is built, they should present a living model where competence is nurtured, responsible citizenship is practiced, diversity is respected, and learning is a continuous pursuit – in short, the universities should present a model of a society that we desire to build and live in.

Vision

To achieve excellence at national and global level by substantially expanding the capacity to execute Data science research and education, industry collaborations, and the availability of state of the art computational tools.

Mission

To provide and facilitate the highest quality data science education, research and industrial collaboration to achieve the national goals.

Introduction

Data science combines statistical methodology, computational science, and a wide range of application domains. Data science job-demand is estimated to rise enormously in the future. Keeping in view the growing importance of data science with every coming day, the university started this program. Our data science program offers strong preparation and training in Computer Science, Statistics, Inference, Machine Learning algorithms, Predictive Analysis, addressing big data challenges, and new technologies.

Laboratories / Facilities

Foreign highly qualified faculty, Excellent infrastructure with healthy academic and research environment, availability of cutting-edge computational facilities (state-of-the-art computing labs equipped with latest machines and State-of-the-art Data Centre with high-end server machines and routers along with

the provision of cloud services, library equipped with a variety of books covering a wide range of classical books as well as the most recent books published with the latest developed techniques, Access to IEEE / ACM etc. journals / proceedings.

Department of Applied Chemistry

Phone: 041-9203040
Email: appchem@gcuf.edu.pk

Vision

To integrate modern teaching and learning methods in the curriculum to provide training to students in interdisciplinary programmes for the academics and industry.

Mission

To provide a nurturing and conducive environment for imparting skills in basic and applied chemistry. The Department of Applied chemistry is responding to the needs of chemical industries by preparing skilled manpower.

Introduction

Government College University is situated in the center of Faisalabad which is the hub of the textile industry because of its vast industrial network and textile based structure. More than 500 textile units in the city are utilizing chemistry to manufacture value added products according to world standards. In addition to textile sector, Faisalabad is also well known for different industries; such as paints, pigments, dyes, sugar, fertilizer, pharmaceutical, foods, oils and fats, soaps and detergents. Keeping in view the industrial need for highly qualified, skilled, visionary and trained manpower that could meet international standards, the Department of Applied Chemistry was established at the Government College University Faisalabad in 2004 to meet industrial challenges. The faculty of the Department is stroiling hard with full devotion and dedication to produce dynamic students of high calibre with clear cut aims and market oriented objectives. The idea behind these activities is to train students as entrepreneurs for creating the opportunity rather than to look for the jobs.

Objectives

- To produce applied chemists who can efficiently manage the working of industries and be able to motivate and adopt new technologies to meet the international standards
- To produce students who are confident of applying the knowledge of chemistry and skills which they acquire in understanding the problems of the local industry and the world at large. Thereby making useful contributions towards resolving industry-linked problems.
- To produce chemists who can work as quality control managers (from raw material and intermediate product to final product) in every sector of the industry.
- To provide skill in handling chemicals, managing chemical laboratories and scientific instruments.

Achievements

Department of Applied Chemistry has established working research collaboration with industry such as paints, pigments, dyes, sugar, fertilizer, pharmaceutical, foods, oils and fats, soaps and detergents. All faculty members of Applied Chemistry are working on different projects funded by HEC out of these eight are NRPU research grants. Moreover, our faculty members have also won research grants from international research organizations such as ISF, ISESCO and UNESCO/IUPAC project for green chemistry. The department of Applied Chemistry organizes International conferences, workshops, symposia and hand on trainings for students, staff and faculty members wherein eminent scientists of international fame are often invited for delivering instructions. The Department of Applied Chemistry is not only progressing in research activities but also has suc-

cess stories in Business and won prizes in Business Incubation Centre, other interdepartmental and sports competitions. The Department of Applied Chemistry is also enhancing its activities by launching different short courses and Associate Degree Programs which are designed in collaboration with the Chamber of Commerce and Industries of Faisalabad. The different areas are: Textile Industries

- Natural Product Isolation
- Natural and Synthetic Polymers
- Polymer composite materials
- Paints and Coatings
- Adhesives and Sealants
- Pharmaceuticals and Nutraceuticals
- Natural and Synthetic Rubber
- Dyes and Pigments
- Glass/ceramics
- Oils and Fats Industries

*STA-795 "Statistics For Research" is a compulsory course for the students of MPhil and PhD. PhD. students will study "STA-795 "Statistics For Research" only in case if they have not studied in MPhil.

N.B: Overall 24 teaching credit hours for MPhil are mandatory and Overall 18 teaching credit hours (except STA-795 "Statistics For Research") for PhD program are mandatory. However, the research supervisor of students may recommend additional courses. The department will offer the courses keeping in view the availability of teachers and nature of research to be conducted.

Vision

To promote quality research in various branches of Chemistry. To promote industrially viable research to strengthen university-industry linkages. To provide students a healthy environment based on curricular and co-curricular activities. To provide well-groomed and highly trained individuals to the society.

Mission

Chemists are the pioneers of modern age. The mission of the Department of Chemistry is to be a benchmark in the "Knowledge Based Study & Value-Added Research". The faculty of the department enthusiastically endorses the slogan of the university "Striving for the excellence". The department aims to stimulate high quality academic and research culture to enrich the society with top class teachers, researchers, entrepreneurs and above all the civilized citizens. The Department of Chemistry is deeply engaged to produce highly qualified and skilled chemists to establish liaison between the academia and industry. We foresee a bright future of our chemists in all areas of life where they deem fit to perform.

Introduction

The modern chemistry boomed and flourished in the era of 20th century. It is renowned markedly as an era of modern chemistry. The significant number of chemists (188) have consecrated with the title of "Nobel laureates" all over the world. Their contribution towards chemistry is deemed as "the greatest benefit to humankind" since 1901 to present. Now days, chemistry is dominating in each component of our

lifestyle. The Department of Chemistry was established in 2002 with the emergence of Government College University Faisalabad. It is located in Sir Syed block at New Campus. A wide and attractive piece of landscape with spacious, ventilated, lecture rooms and theater halls beaming with the natural light. It is glorified with well-equipped general laboratories for all the specializations offered by the department. More than 900 students of undergraduate, postgraduate and doctorate studies are enrolled in the department. The curriculum of all offered degrees is coherent under the guidelines of Higher Education Commission (HEC), Pakistan. New courses are being developed and offered persistently in order to acquaint our students with the recent developments in the subject. The department aims to launch our students to meet the national and international challenges in the field of chemistry. Our graduates are catering the requirements of industry, public and private research sectors. They have been recognized as successful entrepreneurs. The research activities are also flourishing in the department with the large number of ongoing research projects funded by the national and international funding agencies. Faculty of department has won more than 25 competitive research projects worth 80 million PKR on their credit.

Chairman: Dr. Muhammad Kashif Hanif

Vision

To ensure that the students take maximum advantage of the modern computer sciences to solve a wide range of complex scientific, technological and social problems.

Mission

To provide exemplary education and training to our students in the field of computer so that they productively contribute to academia and industry.

Introduction

The Department of Computer Science is one of the most prominent and oldest centers of computer education in Faisalabad city and was established as a separate department by offering ICS program in 1999. The progress journey of the department continued, and it offered BS (CS) program in 2001 and MCS program in 2004.

The department provides excellent computing facilities and ensures the enhancement of practical knowledge of students by facilitating them to learning. The Computer Science Department provides a comprehensive range of facilities necessary for computer use and a library of programs and packages for solving scientific, engineering, commercial and social problems.

Laboratories

The department is equipped with three state of the art computer labs with the latest Pentium machines. These laboratories which are accessible to all students and teachers of Computer Science Department are linked through the state of the art network environment for retrieving information.

The following laboratories have been set up:

- Database Design Lab
- Software Development Lab

A team of excellent and dedicated developers works untiringly hard to develop, design and update wide range of software that meets the university requirements in addition to the market demands as well.

In Charge: Dr. Kashif Mahmood

Vision

We are committed to transform our discipline to applied realms in all our degree programs through introducing advanced courses and technology, besides strengthening our theoretical understanding of geographical processes and human-nature interactions.

Mission

To achieve excellence in spatial sciences through making significant contributions in society by 1) Providing educators with effective and relevant professional development, support and materials, focusing on geographic concepts contents and pedagogy. 2) Applying geographic science to societal and environmental issues in state, the nation and global community. 3). By training students to solve spatial problem by using geo-spatial techniques.

Introduction

The Department of Geography is focusing on its two distinct domains: Human Geography and Physical Geography. Geographic Information System, Remote Sensing, Digital Cartography and Spatial Analysis are the advanced technological sides of the discipline. Besides understanding the physical earth processes, we also focus on social issues in a spatial framework, which makes it unique from other social sciences.

Department of Information Technology

Email: it@gcuf.edu.pk

Programs Offered

1. BS Information Technology
2. BS Bridging Information Technology (2 year Program)
3. MS Information Technology

Chairperson: Prof. Dr. Mariam Rehman

Vision

To establish an effective operational environment containing advanced technological infrastructure, industry collaboration and research culture to deliver quality services to the students in terms of teaching, market exposure and research respectively.

Mission

To technically equipped students by providing support for academic excellence through teaching and promoting research culture to meet the emerging needs of the students.

Introduction

The College of Computer Science & Information Studies was one of the most prominent and oldest centers of computer education in Faisalabad. The center was established as a separate department by offering ICS program in 1999. The departmental progress journey continued, and offered BS (CS) program in 2001, MCS program in 2004 and MS (CS) program in 2009. BS (IT) was started as a specialized area according to the guidelines of Higher Education Commission (HEC). Later, Department of Information Technology became a separate department focusing on specialized areas of Information technology. This journey continued, and department offered MS (IT) program in 2014. The department provides excellent computing facilities and ensure the enhancement of practical knowledge to the students. Department of Information Technology provides a comprehensive range of facilities, which are necessary to

perform computing tasks and to solve scientific, engineering, commercial and social problems. The department is equipped with laboratories having advanced technology computers. These laboratories are accessible for all students and teachers.

Programs Offered

1. BS Mathematics
2. M Phil Mathematics
3. PhD Mathematics

Chairman: Dr. Mohsan Raza

Vision

Our vision is to power minds through excellence. The theory, discipline, and techniques taught in mathematics courses develop computational, critical thinking, and problem-solving skills. We pursue excellence in research, teaching, and mathematics communication. Mathematicians seek truth, beauty, and elegance. Therefore, the faculty of the Department of Mathematics strives to ensure a world-class education and research environment for future mathematicians.

Mission

The mission of the Department of Mathematics is to contribute to society through the pursuit of education, learning and research at the highest levels of excellence. Our wide range of courses at undergraduate and graduate levels offers outstanding training in mathematics and its links to other disciplines. Our research covers the spectrum of fundamental and applied mathematics. The development in courses ensures that the learners will be able to contribute to today's society; and will obtain abilities to assess numerical and graphical information critically, learn to formulate strategies for solving problems, and acknowledge the importance of being intellectually curious throughout their adult lives.

Introduction

Established in 1963 the Department of Mathematics is one of the oldest departments of this institution. It has rich history of excellence and performance and produced renowned mathematicians who are serving in various organizations with distinction and credit.

At the university level, the department currently offers Bachelor of Science (BS), Master of Philosophy (M Phil), and Doctor of Philosophy (PhD) programs in Mathematics. It has produced exceptional graduates who are employed in academic institutions, the Pakistan Atomic Energy Commission, banks, industries, and notably in the aerospace, oil, and electronics sectors. The mission of the department is to foster research skills in creative minds through active engagement in research-oriented activities. The department is staffed with highly qualified and experienced teachers who are dedicated to instilling in students the zeal, spirit, and determination required to tackle new scientific challenges in all walks of life. Additionally, the department provides teaching assistance in Mathematics to other departments of the university, including Physics, Chemistry, Environmental Sciences, Geography, Economics, Banking & Finance, Statistics, Bioinformatics, Computer Science, Information Technology, Engineerings and Pharmacy.

Goals

The Department will offer courses that:

- Build and enhance computational skills necessary in today's society and develop the students' ability to critically interpret numerical and graphical data.
- Develop and enhance the students' problem solving skills.
- Encourage and reinforce the critical thinking skills of the students.
- Develop the students' ability to intelligently communicate mathematical results in both written and oral format.
- Re-institute the Masters in Mathematics, offering concentrations in Applied Mathematics and Teaching of Mathematics.
- Provide the faculty with the necessary time and resources to enhance their professional endeavors in teaching, in research, and in service.
- Provide an environment which will help all faculty and staff to achieve their professional goals.

N.B: Overall 24 teaching credit hours for M Phil program are mandatory and overall 18 teaching credit hours for PhD program are mandatory. However, the research supervisor of students may recommend additional courses. The department will offer the courses keeping in view the availability of teachers and nature of research to be conducted. PhD. students will study *STA-795 "Statistics For Research" only in case if they have not studied in MPhil.

Vision

The Department of Physics seeks to build up its national reputation in Physics education and research and to become national leader in producing highly professional and motivated physicists.

Mission

Our mission is to provide rigorous training in the scientific process and a firm scientific understanding of nature to foster critical thinking and to provide scientifically literate and liberally educated physicists. The primary functional aspects of our mission can be classified as:

- Educating and preparing undergraduate and graduate students for advanced study and employment in education, research institutes and industry.
- Developing highly qualified physicists who can serve as major contributors to the scientific and technological literacy in basic and applied physics.
- Providing physics knowledge, experimental experience and training in analytical reasoning and critical thinking required as the basis for the students seeking advanced studies in physics.
- Polishing the expertise and competence in physics of our researchers/academic staff and to enable them to carry out advanced research in active areas of Physics as demanded by the 21st century.

Introduction

The Department of Physics is imparting quality education and research guidance to its students with the aim of serving the community at large. All the faculty members of the Department are striving ardently for achieving excellence in their profession and are utilizing all their potential to the maximum for uplifting the academic standards of the University. Currently,

the department is offering undergraduate and postgraduate programs. In order to broaden and deepen the vision of the students according to the needs of the 21st century, the Department is also focusing on activity-based learning. By establishing academic and research linkages with local as well as international institutions, the Department of Physics provides a conducive environment for the academic and professional development of its students. The recently organized national as well as international conferences, seminars and workshops speak volumes of the efforts the department has taken to ensure that its students are provided with an in-depth understanding of the field. Owing to the availability of a wide variety of specialized Ph.D staff, the Department offers research opportunities to students in condensed matter physics, plasma physics, health and medical physics, environmental physics, semiconductor materials, Laser spectroscopy, nanotechnology and theoretical physics.

Department of Software Engineering

Email: se@gcuf.edu.pk

Vision

To educate the students to become research-oriented software engineers that are confident and meet the international standards.

Mission

To produce worthy graduates in the various disciplines of software engineering and to train them to apply the knowledge and skills of software engineering in the design, development, documentation and maintenance of software.

Introduction

The department of software engineering provides excellent computing facilities and ensures the enhancement of practical knowledge of students. The department provides a comprehensive range of facilities necessary for computer use and library of programs and packages for solving scientific, engineering, commercial and social problems. The department is equipped with computer labs having Pentium machines. These laboratories are accessible to all the students and teachers and also linked through the state of the art network environment for retrieving information. The department now exists and excels in the faculty of Physical Sciences.

The advancement in the field of software engineering by producing research contributions of international standards. The solution to the real-world problems concerning software and automation. The recognition of the department is at multiple levels due to its research and software development activities.

Vision

To disseminate quality education and produce quality research in different areas of Statistics and to produce highly skilled professional, scholars and researchers equipped with adequate knowledge of Statistics to meet the contemporary and future challenges.

Mission

The mission of the Department of Statistics is to contribute to the overall objectives of the Government College University, Faisalabad and the Affiliated Colleges, Science, and the Arts through excellence in research and education in the Statistical Sciences and through service to the university community, statistical profession, and society at large.

The proliferation of quantitative information in society demands that we help to develop the next generation of statistics professionals while increasing the statistical literacy of our students and the frequency of collaboration with our colleagues. To meet these objectives, the mission of the Statistics Department is to:

- Deliver a high-quality Statistics program for our majors and minors that prepares them for either the workplace or further study in graduate programs;
- Offer service courses for the university that meet the needs of the various majors and enhance the statistical literacy of the students;
- Support continued growth of Statistics faculty members as teacher-scholars. To contribute to the theoretical and applied development of the field through scholarly research in core areas of statistical theory and probability

and publications in leading professional journals.

- To contribute to the development of new statistical methodology to address substantive problems and to promote the use of these methods through publications in both Statistics and subject-matter journals.
- To contribute to the advancement of science and technology through interdisciplinary research, jointly with scientists at the Government College University, Faisalabad and at other research institutions and develop a research culture in society in general.
- Introducing advance topics of Statistics and its applications in different fields through workshops and seminars.

Introduction

Statistical methods and the application of probability theory are essential to the understanding of data and underlying processes in a very wide variety of fields, including health sciences, economics and finance, social science, government, engineering, biological and physical sciences.

In Government College, Faisalabad the Department of Statistics was established in 1960. Initially intermediate and degree classes were started. In October, 2002 the college was upgraded to University and a 2 year Master degree program was launched in September, 2003. BS (Hons.) a 4 year degree program was launched in September, 2005; the Department took the initiative of launching the MPhil (Statistics) program in 2012; PhD (Statistics) has been launched in 2020. Currently around 300 students are enrolled in different programs being offered by the Department of Statistics.

demand of the students and requirements of extended research activities in the graduate and post graduate courses. Statistics is considerably more applied and vocational than many other courses. It aims to produce students who can immediately work as applied statisticians. Whereas all theoretical concepts are covered, the emphasis throughout is on applying and adapting it to real-life circumstances. The analysis of real data sets constitutes the core of the courses and pivotal role of the computer as a powerful tool in modern statistics is constantly emphasized throughout the programs being offered. Weekly assignments/practical work makes extensive use of standard statistical packages including Minitab, SPSS, EViews, R, Mathematica, Design Expert etc. The graduated students are employed in reputable public and private sector organizations like Federal and Provincial Bureaus of Statistics, National Universities, State Bank of Pakistan, Pharmaceutical Industries, Government offices, Commercial Banks, and many other firms and organizations.

Vision

Institute of Arts and Sciences Chiniot Campus aspires to generate and enhance knowledge through continuous progressive efforts for the benefit of all stakeholders, especially University students.

Mission

- The mission of Institute of Arts and Sciences Chiniot Campus is to provide high quality and accessible education, creative endeavors, and meaningful scholarly experiences in pursuit of

local and global contributions to knowledge;

- Offers a welcoming and rewarding academic and work environment for students, faculty, and staff; and
- Fosters innovative learning, community engagement, and critical and independent thought

Introduction

The summary for the establishment of a sub-campus – Government College University Faisalabad-at District Chiniot was approved by the Government of Punjab in 2015 with the vision that university should introduce different programs in different disciplines for the benefit of local masses. The summary of the project was presented before the Chief Minister by Higher Education Division and it was approved in 2018. The land which is allocated for the development of sub campus is 101 Kanals and 16 Marlas at Chak No.14 JB, Chiniot. It is 8 kilometers away from the city center.

The Worthy Vice Chancellor of GCUF Prof. Dr. Shahid Kamal along with other administrative staff visited the site of the campus on February, 2020. Now two academic blocks are under construction at the said site with the approved capital cost of Rs 1676.561 million by CDWP. Currently, the temporary building which is just 3 kilometers away from the city Chiniot is operational for the classes of running semesters.

The main objective of the campus is to provide high quality and accessible education to the students of District Chiniot who in order to get higher education used to go to other districts.

Currently, BS programs in five subjects (Sociology, English, Mathematics, Computer Science & Business Administration) are being offered in the Institute of Arts and Sciences, GCUF, Chiniot campus. We are planning to offer more BS programs in the near future.

Our Teaching Faculty of all the Departments- Sociology, English, Mathematics, Computer Science & BBA is highly qualified, experienced and enthusiastic, who will provide the highest quality learning environment for the greater wellbeing of our students and deliver an outstanding educational portfolio. In a short span of time, campus has made considerable progress in terms of academic development, as a huge response from the students of Chiniot is seen during the enrolment campaign.

Introduction

The sub-campus of Government College University, Faisalabad at Samundri has been included in Medium Term Development Framework (MTDF) 2021-24. It is also reflected in Annual Development Program (ADP) 2021-22 and presently under construction. This newly established sub-campus intends to provide opportunities of seeking quality education at affordable cost to the students of Samundri and adjoining towns. This scheme has been approved in Departmental Development Sub-Committee (DDSC) meeting held at Higher Education Department

Government of Punjab. The PC-I amounting to Rs. 398.309 million has been approved. The construction of state of the art sub campus is underway on the state land measuring 211 Kanal 3 Marlas at Chak 469/GB Main Rajana-Samundari road just 3 km from main city. The land has been transferred by the Board of Revenue (BOR), Colonies Department Punjab. The Master Plan of Sub-campus comprises of state-of-art buildings including Academic Blocks, Hostels Administration Block, Faculty and Staff Residences, Masjid, Mini sports Complex, Cafeteria and other allied facilities has been prepared. The construction works has been started on site with full swing. Initially, several BS programmes covering some important fields of Social Sciences as well as Basic Sciences have been prioritized.

University Community College

Prof. Dr. Shahzad Ali Shahid Chatha
Principle

Message of the Principal

The University Community College, a constituent college of Government College University, Faisalabad, ever since its inception, has kept on its status as one of the renowned colleges of the country. Our students have excelled in every field of life and have won laurels not only for the institution but also for the country. The faculty of our college comprises the best academicians who put their maximum efforts in imparting knowledge to their students and inculcating among them a sense of responsibility and a zeal to learn. The University Community College, Government College University, Faisalabad is struggling for excellence in its dispensation of job-oriented, work-related, skill-based and life coping education in an environment distinguished by the principles of discipline, regularity and punctuality with state-of-the-art scientific and computer laboratories, up-to-date library and a participation in healthy curricular and co-curricular activities. The university administration and the academicians have devoted themselves for the brilliant and bright future of their students and try them to provide the most conducive learning atmosphere. The focus of the University Community College is to produce highly responsible citizens. We promote job-oriented, work-related, skill-based and life-coping education. The college also imparts quality, market responsive training especially designed to meet the changing technical requirements for today's jobs in Pakistan. University Community College has re-launched Intermediate Programs with new zeal and zest. The institution aims at re-gaining its old practices of character building of its students and prominently recording results with highly qualified and experienced faculty members who are willing to struggle with full devotion and dedication. I hope that the experience of studying at University Community College will not only be profitable but also be memorable for the students. I wish them all success in life.

University Community College

Vission

Our major target is to produce skilled, dedicated and creative professionals in the spheres of Commerce, Banking, Business Administration, Computer Science, Clinical Psychology and Foods science. In order to re-gain our lost glory, we are firmly determined to provide quality education at Intermediate level as well. In pursuit of our vision, the College provides quality education at both intermediate and undergraduate levels

to produce individuals who will play leading roles in their picked vocations.

Mission

We intend to equip future business professionals, bankers, computer experts, business administrators, psychologists and food scientists with clear vision, skills and capabilities to shoulder the socio-economic responsibilities in a befitting manner. We also aim at imparting basic and modern scientific knowledge to our young ones, enabling them to play the most important role in their respective disciplines. We have developed a very much adjusted arrangement of examination of the most elevated quality.

History of College

The Middle School, opened by Lala Jowala Das in 1897, was raised to a High School in 1905. Chaudhri Fateh-ud-Din, who some years back, retired from the Punjab education service as inspector of schools, Multan Division, was the first headmaster of the high school. To the historiographer, the institution presents the appearance of a rapidly growing youth, who is constantly outgrowing his garments. The high school began to grow in numbers and reputation and it had the exceptional good luck of having a succession of very competent headmasters man who had made their mark in the service. In 1908 Sardar Mohan Singh took over from Chaudhri Fateh-ud-Din, and in turn made over to Lala Harkishen Das, M.A., who remained in charge of the school from 1909 to 1919. During the headmastership of Lala Harkishen Das the school became very popular, and the records state that the old building (now occupied by the Government Intermediate College for Woman) was soon found to be insufficient for the requirements of the school. With the sympathetic support of Col. Douglas, the then Deputy Commissioner of Lyallpur, Lala Harkishen Das was able to persuade the department to sanction a grant for the new building. Lala Harkishen Das, who has since retired from the service, mentions that the keen personal interest in the matter taken by the late Rai Bahadur Sundar Das Suri, the then Inspector of schools, was of great help to him in securing the building grant of Rs. 1, 15, 000*. The building operations were taken in hand in 1912, but it was three years before the school could be moved into the new building, which with slight alterations and a few additions forms the present building of the college. A very conspicuous feature of the present building is the lovely approach linked on both sides with artistically planted

trees of thick foliage forming a beautiful avenue. It testifies to the artistic taste of the planter. The layout of the playfields also reflects credit on those who 'broke the first sod'. The building itself has little of architectural design or beauty about it, being severely utilitarian in aspect a fit commentary on the spirit of the age in which we live. Even as a school this institution was able to instill into the young minds of its alumni that love which draws out and develops the healthiest sentiments. Writing in the Degree College special number of the Beacon, an old boy of the school gives expression to his feelings in the following words:-

"These precincts were our world years ago. Even now, of some fine morning, when the doors are shut and nobody is nearby, I go out of my way and pass through the corridors of this old school of mine. There is none who can dispute this right of old, and once again I feel like a child in the lap of its mother."

The school continued to make progress and the next headmaster of note was Sheikh Mohammad Zahur-ud-Din, now Inspector of schools, Rawalpindi Division. Lala Lachman Das, Head Clerk, who has been associated with the institution for over 19 years, tells an interesting anecdote regarding the next landmark in our annals. In the year 1924, at the prize distribution of the school, the Headmaster Lala Hukam Chand, in his report remarked that there was persistence rumour 'hanging like the sword of Damocles' to the effect that the school would soon be converted into an intermediate college. On the conclusion of the Headmaster's report Sir George Anderson in his presidential speech humorously told the gathering that the sword of Damocles which the Headmaster feared, must fall, and that the High School would be raised to an Intermediate College from May, 1924.
